IN THE BEE TO-DAY

WEATHER.

The local forecast for to-day is clear and continued cold weather. For Saturday clear, warm in the evening.

The storm central over New England yesterday has disappeared. The temperature over the entire country to-day is falling from the effects of the cold wave. Generally clear and cold weather prevails, except in the path of the late storm in New England, where it is snowing.

The "high" area is advancing eastward slowly; its center is about 300 miles in width and extends from the northwest as far south as Memphis. Its eastern line is now at Chicago. The cold weather continues in the Canadian northwest with slight modification. The extreme of the season was reported from Minnedosa where it was 48 degrees below zero. The lowest temperature in the United States is in Minnesota: St. Vincent reported 40 degrees, Moorhead 28 degrees and Duluth 26 degrees below.

The highest temperature in the United States to-day is 40 degrees at Charleston. Cold weather slightly moderating daily, may be expected until Sunday night.

Highest temperature in Toledo yesterday was 23 degrees; the lowest this morning was 4 degrees above.

WILL IT BE WAR?

Has Uncle Sam's Patience Worn Out?

Troops Being Concentrated at Handy Places

And Decisive Action Soon Expected.

Diplomacy Has Run Its Sluggish Race.

President Harrison Has Been Sounding Democratic Leaders to Find How the House Would Act in a Case of Emergency.

Washington, Jan. 15.—There is a standstill in the Chilean affairs that forebodes some important move on the part of the president.

All correspondence is in his hands and he is requiring from legal authorities in the department of justice some opinions concerning the effect of testimony at Vallejo since the return of the Baltimore.

The most important fact that has come to light is that the president has personally sounded some of the leading democrats as to what would be the attitude of the house in case the situation became so serious that the national honor will have to be upheld by force of arms.

Chairman Blount of the house foreign affairs committee has been consulted and he gave the president the assurance that there would be no hesitation on the part of the house to vote all that may be necessary to sustain the honor of the flag.

While intent on general retrenchment of governmental expenses there is no member on either side of the house who will hesitate to appropriate all that may be required to secure satisfaction from Chile.

No political capital could be made out of such expenditures as they would be extraordinary in their character. The president has not indicated the date upon which he will send his message to congress. It may be expected very shortly and in this connection there is a resumption of the unwonted activity in getting the navy into good shape.

The Washington navy yard ordinarily has been in operation eight hours each day. Recently the gun foundry and projectile shop were put on twelve-hour time.

Within the present week arrangements have been made to operate the yard on three eight-hour turns per day, which means uninterrupted work for 24 hours in every working day.

There is a great shortage in shells for the new 8, 10 and 12-inch guns. The plant for the manufacture has never been large, as all that were kept on hand was a sufficient number for experimental purposes when gun tests were being conducted. So short is the present supply that the government was obliged to buy projectiles abroad with which to make the recent armor plate tests at Indian Head.

If our improved navy is to be effective each one of the ships will have to have a tremendous amount of these projectiles on hand, and it is to equip them in this respect that the projectile shop is in constant operation day and night.

For the purpose of aiding in the defense of the Atlantic coast two of the old monitors which have been for years lying in the mud at Norfolk are to be floated and manned. They will only be available for coast defense, as they are old timers and unable to stand up against modern ships, but they can be armed with modern guns and each will make the most formidable kind of floating battery.

It is estimated that the war department has now concentrated within easy reach of San Francisco at least 10,000 men.

When the size of the United States army is considered, and the fact that certain posts in the Indian reservation have to be well equipped at all times with troops it will be seen that the department has put about the last available man where he will be handy when needed.

There can be no doubt that the president believes a peaceful settlement is unlikely to occur. He is preparing as rapidly for the other contingency as present facilities will permit and when he can go no farther without congressional action the official request for such action will be made.

One of the difficulties with which this government has been constantly confronted is the distrust which the department has had of Egan. His dispatches were in the main unsatisfactory and it has been difficult to get out of him the real state of affairs in Santiago. As stated the correspondence is now in the hands of the president.

The distrust alluded to is made clear in the following correspondence, there being a question of veracity between Egan and the Chilean minister of foreign affairs, Senor Matta. On December 3, Secretary Blaine sent the following dispatch: "Egan: Matta telegraphs Senor Montt that your testimony in Baltimore case was asked twenty days ago and not given, by whom were you asked?"

"BLAINE."

The following reply was received on December 4:

"Blaine: Your cipher telegram received. The statement of minister of foreign affairs is to me inexplicably incorrect. On November 9 same wrote to me regarding information in previous letters of Capt. Schley, which contained testimony of Baltimore men. Capt. Schley was treating direct with Valparaiso officers by order of navy department I called upon Matta and explained this fact and he thought it satisfactory to let things take their course at Valparaiso.

"EGAN."

Evidently Secretary Blaine did not believe this, for on December 9 he sent the following: "Chilean minister insists that you were asked to give testimony in the Baltimore case and you have not done so. Have you been asked by Matta?

"BLAINE."

In his reply on December 13 Egan crawled out on a technicality, in which he said that Matta had conveyed some sort of a request to that effect in connection with other correspondence, but that he had seen one of the under secretaries and in a conversation it was agreed that he should not testify on the ground that he knew nothing about the case. From the foregoing it will be seen that Blaine has had to force his information piecemeal out of Egan, who seems to have done his best to decieve rather than enlighten the state department.

Another fact revealing the suspicion with which Egan is regarded is shown in the above dispatches. Egan in his reply of December 4 points out that Capt. Schley was treating direct with Valparaiso officers by order of the navy department.

This sentence shows that in a critical case, where the result of an investigation would determine the future relations of this government with Chile, this government was obliged to place the investigation wholly in the hands of naval officers in whom the president had confidence, because the accredited minister could not be trusted to do it honestly. That the United States and Chile are badly tangled up at this time is not surprising when it is considered that Egan has been in a measure handling our case.

CRUISER NUMBER THREE.

Work Being Pushed Rapidly at the Union Works.

San Francisco, Jan. 15.—The first rivet was driven yesterday in Cruiser No. 3. at the Union Iron works. Capt. Schley and many navy and army officers were present.

They were all pleased with the way work is being pushed on the Monterey. She is all ready for her trial trip except the armor plating. The boilers, engines, all machinery, everything but the armor plates and guns, are in place. In case of war the armor plate can be quickly put in place.

It was the government's intention to test the plate before putting it on the vessel, but this will probably be dispensed with. If the plate were here the Monterey could be ready for the trip by the first of next month.

HAD TO DISBAND.

Theatrical Company Completely Broken Up by a Railroad Accident.

Crawfordsville, Ind., Jan. 15.—The City Club Burlesque company, which was so disabled in the wreck, and which was to have been in Chicago this week, is still here quartered at the Nutt house.

Mr. Moaco, the manager, says the company will be compelled to disband on account of the serious injuries of so many of his people, numbering in all 23.

Miss Rokey, the Hungarian lady, who was mangled and killed in the wreck, was buried here yesterday in the Catholic cemetery. Many of the unfortunate victims of the wreck are now in a critical condition.

Roadmaster Cornwall, who was so seriously injured in the wreck on Tuesday, was removed yesterday on a stretcher to his home at Bloomington, Ind. His condition is critical.

DIED ON THE GALLOWS.

Bager City, Ogn., Jan. 15.—Advices received here from Canyon City state that Ming How, a Chinaman, was hanged there yesterday for the murder of a countryman. The drop failed to break How's neck and he died in convulsions after 12 minutes of terrible suffering.

TALKING TO THE FARMERS

Governor McKinley's Address Yesterday.

He Promises to Aid the Tillers of the Soil.

A. H. Kling, of Marion, Elected President of the State Board of Agriculture at Columbus.

Columbus, O., Jan. 15.—The annual agricultural convention called by the state board of agriculture began its sessions in the senate chamber yesterday.

President Black delivered his annual address, in which he congratulated the members of the organization upon the election of Gov. McKinley, who is interested in agricultural matters. A number of addresses were read.

At the afternoon session Gov. McKinley welcomed the delegates to the capitol. When the governor entered the chamber he was greeted with applause. In welcoming the delegates, Gov. McKinley said:

"Mr. Chairman and gentlemen of the Agricultural Society of Ohio: I am very glad to meet you this afternoon, and regret that my official engagements at the beginning of a new administration will not permit me to spend as much time with you as I otherwise would have been glad to have done.

"I understand that I was to bid you welcome to the capital of your state. It seems to me that this was a work wholly unnecessary, for you are only assembling at your own capital in your own state, but if any welcome is needed I desire to extend that welcome in the heartiest and most cordial manner to each and every one of you.

"What I have on my mind most at this time in connection with the interest of agriculture is good roads throughout Ohio. I know of no single need so great and so pressing as to have our public highways made passable in winter as well as in summer, and there is no doubt in my mind from the investigation I have given the subject that the advantage and economy to the agricultural people would very far exceed the expense that will be attendant upon such improvements.

"I want to say to you, gentlemen, that in my official capacity it will be my pleasure to co-operate with you in every effort to give to agriculture the fullest recognition. I was very much impressed last spring, as I rode to the state convention held in this city, with an interview I had with a farmer who was coming as a delegate to the convention.

"I said to him, 'What do you farmers want touching legislation in Ohio?' He said: 'The farmers of Ohio want no legislation for their special and exclusive use; they simply want that legislation touching their interest which will not only do them good, but be for the general good.'

"It occurs to me, gentlemen, that that was the right spirit. The farmers of Ohio and the farmers of this country have been the most patient of any class of our fellow citizens, and always patriotic. They have been the most conservative; they have been the safest counselors, and they have furnished to us the best sentiment and best civilization of state and country.

"You will have your interest to look after, and must do so, for every interest is vigilantly guarded by its representatives. While a member of congress from this state for many years, in touch with the great industrial interests of the country, as I was, I was more than once impressed how helpless the farmers were before the great legislative bodies of the country compared with other interests.

"Every other great interest, every other great industry had vigilant and able and capable representatives. They could concentrate on a single moment. Telegraphic dispatches from Washington to any great interest in the country, other than yours, that their interests were involved in legislation before congress and was in jeopardy at Washington, and in 24 hours the ablest men in the country appeared to defend and protect them.

"Your population is scattered. You do not have conventions frequently; you do not assemble often enough. When your great interests are in jeopardy, as they have been in jeopardy in the past, it was next to impossible to have the power of concentrated effort from the farmers of Ohio and from the farmers of the country, and congresses and legislatures are very human.

"They never look out for any interest any better than the interest itself looks out for itself; and if I had any advice to give to the farmers of Ohio to-day it would be a thorough and complete organization in their interest, and their highest interest is the highest interest of all our people. There is one thing that they all might as well make up their minds to down in the east, that they can't have wool free when it comes from the sheep's back, and put a tariff on it when it comes on to a back. (Applause).

"They can't have wool come into their factories in New England free, and come out of their factories with a tariff to the American people. And now, gentlemen, having said this much without any previous notice, and being very busy, as you must know I am at this time, I beg to thank you for having been called into your presence, and the pleasure which it gives me to meet all, and say in all your interest during the next two years if you don't have my co-operation and assistance it will be your fault and not mine." (Hearty applause).

Treasurer Kling's report shows receipts for the year to have been $125,487.65, expenditures $119,675.16. The following new members of the board were elected: J. W. Pollock, Green county; U. Ohmer, Montgomery; Chester Bordwell, Clermont, and F. A. Derthick, Portage. The board met and elected the following officers: President, A. H. Kling, Marion; treasurer, W. W. Miller, Castalia; secretary, L. M. Bonham, Oxford; assistant secretary, G. W. Fleming, Columbus.

Treasurer A. H. Kling's report gave the total receipts of the board from all sources for the year as $125,487.65, and the expenditures as $119,675.16. The state fair grounds are valued at $400,000, and the indebtedness thereon is about $65,000. He estimated that the grounds and improvements were worth $189,249.86 more than they had cost the state.

The afternoon session was opened with an address on the "Rusts and Smuts of Wheat, Their Life, History and Prevention," by Prof. W. A. Kellerman, of this city, to be followed by a paper on "Cornstalks," by H. E. Alvord, of College Park, Md.

The convention adopted resolutions approving the work of Secretary Rusk in the interest of agriculture; approving work of the Ohio state university in agricultural line; expressing thanks to Wayne county for its liberal support in securing the experimental station and asking the legislature to make appropriation to equip the same; approving Governor McKinley's position regarding the canals; condemning the practice of fair associations in granting privileges to conduct games of chance; approvin the work of the state board of agriculture in conducting farmers institute; recommending the appointment by the governor of one agriculturist on the board of trustees of the Ohio State university; asking the legislature to enact legislation for improvement of roads; and recommending S. H. Todd, of Wakeman, Huron county, for superintendent of the swine department at the Columbian exposition. They also memorialized the legislature to appropriate at least $40,000 to make a state exhibit of live stock, wool and other agricultural products at the Columbian exposition.

SO HE WROTE HOME.

Fr. William Kroeger Sends Word from Canada That He is Broke.

Elkhart, Ind., Jan. 15.—Father William Kroeger, the Catholic priest who ran away from here a few weeks ago, leaving debts to the amount of considerably over $20,000, has written here stating that he is an inmate of a Canadian hospital, sick unto death and without any funds whatever.

He says he does not expect to recover, as he has the grip, coupled with an old complication which has come back on him. He wants some one here to send him money enough to take him to Cincinnati, his old home, where he says he could die in peace. The money will be sent.

CHAPLEAU WILL RESIGN.

Ottawa, Ont., Jan. 15.—It is announced to-day that Hon. J. A. Chapleau will, immediately after the pending Quebec provincial elections and the bye-elections to fill the numerous vacancies in the Dominion house, resign his position as secretary of state in the cabinet, on the ground of ill health.

ACTOR KNIGHT IS DEAD.

The Failure of Baron Rudolph Broke His Heart.

He Wanted to Make for Himself a Niche in Legitimate Comedy, and His Failure, as He Thought, Caused His Illness.

Philadelphia, Jan. 15.—George S. Knight, the actor, died yesterday afternoon at the home of his mother, Mrs. Rebecca Sloan, in this city.

Mr. Knight was stricken with paralysis four years ago in California and has not been on the stage since that time.

Mr. Knight's real name was George Sloan. He began his theatrical career on the variety stage. About twelve years ago he married Sophie Worrell, of the famous Worrell Sisters, and they subsequently starred together in "Otto." The play was a great success and they made a great deal of money.

Much of this was lost in an effort to float Bronson Howard's play, "Baron Rudolph," which had been written for Knight. Mr. and Mrs. Knight also attained success in "Over The Garden Wall," but when that was exhausted they were unable to obtain another start for starring, and Knight was compelled to re-enter the ranks of the profession and accept an engagement from a manager.

In 1883 Mr. Knight was afflicted with a malady which was in some degree similar to that which killed John McCullough and Bartley Campbell, and compelled Tony Hart to leave the stage.

He became preoccupied and forgetful and in November of that year was compelled to place himself under the care of physicians at his residence in West Orange, N. J.

His chief difficulty was in his speech and he frequently was unable to speak his lines with the rapidity demanded by the performance. He soon rallied, however, and after a few months rest resumed his professional duties.

STRUCK BY A TRAIN.

Another Crossing Accident in Chicago.

A Street Car Loaded with Passengers Struck by a Locomotive Going Forty Miles an Hour.

Chicago, Jan. 15.—A surface railway crossing horror occurred last night at Forty-seventh street, and the Chicago, Pittsburg & Fort Wayne tracks. An inbound Fort Wayne train struck a Forty-seventh street transfer horse car of the Chicago City Railway company. Two passengers on the the horse car were killed instantly. Thirteen other passengers were injured.

The train was the "Limited," known as No. 9, and the crash was at a point where there is a network of 14 different tracks. Two who have not been identified were the fatalities. The following were injured:

Reinhold Leonhardt, head cut.
Lizzie Peterson, face and head.
George Harris, head.
Lizzie Savage, side and head.
Joseph Winterhalle, face and arms.
Peter Anders, head.
Patrick Kriegel, head.
Mabel Fraster, scalp.
Mabel Hilden, eye and skull.
Mary Fraster, scalp.
Frank Kapa, face and internally.
Joseph Kapa, head and shoulders.
Richard Hatch, head.

The catastrophe was due to the combined carelessness or stupidity of three men, Herman Albrecht, the crossing keeper; Joseph Flannigan, the conductor of the street car, and Michael Crogin, the car driver. It was the street car conductor's duty to run ahead and see that the tracks were clear, but whether he did this is not apparent.

Albrecht, the crossing-keeper, says he did not. It is certain the tracks were clear on either side, the electric lights lit up the road for a mile in each direction, and yet Albrecht did not see the "Limited" bearing down on his crossing at the rate of 40 miles an hour. He raised the fatal gates, Driver Crogin whipped up the horses and in an instant was on the tracks just in front of the speeding train. The engineer pulled his whistle valve, the crossing-keeper, driver and conductor looked around for the first time and screamed a too tardy warning. There was a crash, a score of human voices raised in the agony of horror, and the street car and its burden of 14 people was hurled, splintered and crushed 50 feet ahead of the train.

A BROKEN RAIL

Hurls a Passenger Train From the Track.

A Sleeping Car Consumed by Fire

And Two of Its Occupants Burned to Death.

Twenty Other Victims Badly Injured.

A Horrible Disaster on the Northern Pacific Railroad, Near Brainard, Minn., at an Early Hour This Morning.

Brainerd, Minn., Jan. 15.—A horrible accident occurred on the Northern Pacific railroad at Jonesville, the first station east of here, at 3:50 o'clock this morning.

A special train, consisting of the sleeping car "Petrel" and a baggage car, was running as the second section of No. 9, the regular train from Superior.

The special left South Superior at 11:30 last evening, having on board the Andrews opera company, going from Duluth to Grand Forks. The train was running at the usual rate of speed, when it struck a broken rail.

The sleeper left the track and went down an embankment landing bottom side up. The flames broke out from all parts of the car immediately and burned so rapidly that the crew could do nothing but extricate the passengers from the wreck.

When all were believed to have been rescued a search revealed the fact that Mrs. Ed. Andrews, wife of the proprietor of the troupe, and her maid, Miss Lilly Wallace, were missing.

By this time the flames were burning so fiercely that it was impossible to get near the car. When the flames were finally subdued, the remains were discovered, so badly burned that it was impossible to identify one from the other.

Mrs. Andrews and Miss Wallace had occupied an upper berth at the forward end of the car and were wrapped in bed clothes. There was no outcry from this berth while the work of rescuing the injured was progressing and it is supposed that both occupants were killed instantly.

The rapidity with which the flames caught and spread through the car caused no little surprise. It is supposed from the rapidity with which they spread that they caught from the lamps.

Twenty passengers, more or less, seriously injured, were taken from the wreck. Physicians were sent from Brainerd on a special train. The injured were brought back to this city and taken to the Northern Pacific hospital as soon as possible.

Here they were given the best of care and medical attention. The hospital is one of the best in the United States and the injured will not suffer from want of care. Mrs. Andrews stage name was Nannie Wilkinson.

THEY CANNOT AGREE.

McKinley and His Railroad Commissioner.

Two Factions of Railroad Employes Call on the Chief Executive.

Columbus, O., Jan. 15.—About one hundred railroad men, called here by Division No. 26, Order of Railway Conductors, to choose a candidate for railroad commissioner and request his appointment by Governor McKinley, got into a ridiculous row yesterday.

They met in Odd Fellows' temple, and a conductor named Parrett called the meeting to order, but when an attempt was made to effect a permanent organization the temporary chairman refused to consider any motion whatever.

He declared everything out of order, and adjourned the meeting to 3 o'clock in the afternoon, but the delegates would not adjourn.

They kept up a wrangle, and the outcome of the row was that the members of the Brotherhood of Engineers and Firemen formed one party and the organizations of telegraphers, brakemen and conductors, and the United Trainmen formed another.

Each party has a candidate and is working with might and main to have their man appointed. The engineers and firemen want C. G. Knight, a railroad man of Columbus, and the other party advocates the selection of J. F. McVean, of Cleveland.

Delegations from each faction called upon Governor McKinley. The trainmen first were admitted to a conference with the governor, and they remained with him a half hour or more. While they were inside the engineers and firemen waited in the outside office for their turn to state their desires.

The engineers and firemen were numerically stronger, but it is alleged that their man Knight is not eligible because he is now employed by a railroad company. McVean retired about a year ago.

The governor did not decide the question, nor is he likely to consider any claims very strongly unless the railroad men can unite.

TAKEN BACK TO JAIL.

F. L. Forlow Was Unable to Give Bail.

Defiance, O., Jan. 15.—(Special)—F. L. Forlow appeared in Justice Orcutt's court yesterday. Messrs. Woods and Enos appeared in behalf of the state, and Hon. W. D. Hill for the prisoner.

Mr. Hill said that they would waive examination and were not prepared to furnish bail.

This was accepted by the justice who fixed the bond in the sum of $500 for his appearance at common pleas court.

Mr. Hill said Forlow might be able to furnish bond later.

DYNAMITER DEAKEN.

London, Jan. 15.—Deaken, the alleged anarchist, who was arrested on Dec. 1st in connection with the Walsall dynamite conspiracy, and who after a preliminary examination was remanded to permit of further investigation by the police, was to-day discharged from custody. As he was about to leave the court room, however, he was promptly re-arrested and taken to Walsall.

A PUGILISTIC FAKE.

Chicago, Jan. 15.—Charley Mitchell and Frank Slavin will, in all probability, head an athletic combination and tour Canada under the management of Benjamin Leavitt, of the Windsor theater, where the pugilists are now giving sparring exhibitions so successfully. The tour will last until it is time for Slavin to return to England to commence training for his fight with Jackson.

ANARCHISTS TAKE UP ARMS

Fierce Assault Made Upon Bornos.

The Red Flag Followers Were Only Repulsed After a Desperate Battle with the Officers.

Madrid, Jan. 15.—Dispatches received here from Bornos, in Andalusia, 28 miles northeast of Cadiz, state that the anarchists attacked the town, and were only repulsed after considerable fighting and repeated cavalry charges.

Numerous arrests have been made.

The region is greatly excited by the incident, coming as it does so soon after the Xeres incident.

Bornos, which has a population of 4,530, is but a short distance from Xeres, which was on the eve of Jan. 8, the scene of a fierce conflict between armed anarchists and the police of the place.

During the struggle at the latter place, a number of the riotous anarchists were wounded and 30 were taken prisoners.

JUST THE BOY WANTED.

At 8 o'clock to-night, in Association hall, corner Summit and Orange streets, the members of the junior department of the Y. M. C. A. will assemble to hear the following leaders in business of Toledo talk about "Just the Boy Wanted in Business Life," viz.: J. D. R. Lamson (a member of the firm of Lamson Bros., dry goods merchants), J. J. Freeman, the well-known jeweler, and H. C. Sprague (of the firm of Maclaren & Sprague, among the leaders in the lumber trade). The boys surely will appreciate this opportunity of learning what is required of them to become successful merchants.

$6 Boys' Suits for $4 at Mockett's.

ANOTHER CHRISTMAS.

The middle of next week the Adams Street Mission managers will make a Christmas tree for the children of their Sabbath school. The friends who feel well disposed toward this work, may send their donation of toys, dolls, sleds, books, candies, shoes, clothing, etc., or monies to buy articles with, so they can be prepared, not later than Tuesday night. Remember how greatly you recently enjoyed your own gifts, and perhaps it will stimulate you to feeling more like helping these less favored children of our City Mission enjoy theirs, coming late as it does, so as to not trespass upon the Christmas time of the rich and well-to-do.

THE SCHEME FELL THROUGH

Columbus to Join the Western League.

The Much Talked of Meeting for the Capital City Next Week Has Been Declared Off.

Columbus, O., Jan. 15.—The meeting which was called to take place here next Monday for the purpose of organizing a central league, has been declared off, and the scheme abandoned.

This means that Messrs. J. A. Williams and Gus Schmeltz, who are at the head of the new Columbus club, and who were also at the head of the proposed central scheme, have decided to unite with the western league.

WHAT'S THIS?

Will the Hocking Valley Absorb the Ann Arbor?

To-day's Columbus Journal has the following interesting bit of gossip about railroad matters:

It has been rumored in a quiet way that negotiations are in progress for the absorption of the Toledo, Ann Arbor & North Michigan railway by the Columbus, Hocking Valley & Toledo. The rumor is based ostensibly on the fact that the road mentioned is in the market.

While the rumor is not confirmed it arouses more or less speculation as to the value of this property to the Columbus, Hocking Valley & Toledo. The Toledo, Ann Arbor & North Michigan runs from Toledo to Copeinisle, a distance of 274 miles. It also has a line to East Saginaw 38 miles in length, leaving the main line at Durand, 99 miles from Toledo. From Ashley, 132 miles above Toledo, it operates over the Toledo, Saginaw & Muskegon to Muskegon on Lake Michigan, a distance of 95 miles. This property would give the Columbus, Hocking Valley & Toledo a solid footing in the northwest, where it must look for the further development of its immense coal traffic.

The road now turns over to the Toledo, Ann Arbor & North Michigan a large amount of coal, and by controlling it gaodeiouwemgurrrp earsvehweto ooodao,g would be placed in a better position to command business.

The necessity of a line which will put Ohio coal on an equal basis with Indiana coal in the northwest has become forcibly apparent in the last few years. While the Toledo, Ann Arbor & North Michigan would not be the best connection that could be desired, it is believed it would ad brdeedadlwoddt,iudlsbviteobeiediesRril add greatly to the earning capacity of the Columbus, Hocking Valley & Toledo.

A boat line has been recently established by the Toledo, Ann Arbor & North Michigan with Kewaunee for its terminus in Wisconsin. With this boat line and an all rail line to Muskegon, the Columbus, Hocking Valley & Toledo would have a route similar to that proposed by B. C. Faurot in his Columbus, Lima & Northwestern project.

AN INTERESTING COLLECTION.

A Bee last evening had the pleasure of examining a large number of photographs taken by the government during the civil war, the authority for the circulation of which was not until recently granted. Various scenes incident to the great struggle from '61 to '65 are depicted—camp life, on the field in action, after the battle, etc. Arrangements are being made whereby Toledoans will have an opportunity of viewing this interesting collection, by the aid of a stereopticon, in the near future.

BURNED TO DEATH.

Millbrook, Mich., Jan. 15.—Two young children of Wm. Allen, Jr., were horribly burned last night, and died in a few minutes. Their clothing became saturated with oil from an overturned lamp and caught fire from an open stove.

A needy woman—the one who's overworked, nervous, and debilitated. What she needs is Dr. Pierce's Favorite Prescription. It's made exactly to fit her case—an invigorating, restorative tonic, and a soothing and strengthening nervine, giving tone and vigor to the whole system. But it isn't a mere stimulant. It's a legitimate *medicine*, that an experienced physician has carefully prepared, for woman's ailments. All the functional derangements, chronic weaknesses, and painful disorders peculiar to the sex, are corrected and cured by it.

And because it's a *certain* remedy, it can be made a *guaranteed* one. If it fails to give satisfaction, in any case, you have your money back.

You pay only for the good you get.

The best pill costs less than any other. Costs less, but does more. They're smaller, too, and easier to take. Dr. Pierce's Pleasant Pellets are the best pills. They regulate perfectly the liver, stomach, and bowels.

LOCAL HAPPENINGS.

Humane society meets next Tuesday evening.

Mr. J. H. Meagley, of St. Paul, Minn., is in the city visiting friends.

A. L. Backus & Sons have established headquarters in the store adjoining the Gas Light and Coke company.

Mrs. C. Q. Murphy and Jeanette Olmstead left this morning for Washington, D. C., to attend the National Suffrage convention.

Mrs. W. J. Colburn gave a charming reception yesterday afternoon. The decorations were artistic and elaborate, being under Mrs. Suder's supervision.

A regular meeting of Bryant Circle will be held Tuesday evening, January 19th, at 7:30 o'clock. Lesson: History, paragraphs 216-234. Social Insitutions, chapter 17.

Mrs. A. E. Lang went to Massillon this week, and from Massillon she will go with other friends to Washington. Mrs. Lang is a delegate from the Toledo Suffrage association to the National Suffrage convention which will be in session in Washington next week.

If a jolly crowd of boys are seen having a sleigh ride Saturday afternoon you may be safe in calculating that they compose what is known as the Junior department of the Y. M. C. A. They will start from the Association at 2:30 o'clock for a two hours' ride around Toledo.

INDIAN DAYS AND TROUBLES

The Purpose of This Series of Papers.

Chief Pontiac and His Plot—Massacres at the Mouth of the Maumee, Presque Isle and Other Points.

We have seen the foundations laid for the wars and butcheries that for half a century of the early west were a living horror which stamped the English nation, especially, with an infamy and a disgrace that will remain until the last page of written history shall have been obliterated—the stigma is indellible.

The white man put into the Indians' hands the deadly rifle and musket, and taught them their use. The white man gave them whisky that inflamed their savage passions. The white man incited their cupidity; he hired them to kill and scalp indiscriminately the defenceless emigrants; sometimes entire families and settlements. And all this was done to secure the monopoly of cheating the unsuspecting savages. These practices continued up to the close of the war of 1812. The chief enormities were perpetrated within the eighteenth century.

The entire chronicle is an ineffaceable blar on the pretended Christian civilization of the two nations that mainly took possession of the North American continent, and assumed the right of appropriating it to themselves.

It would fill columns to detail all the Indian outrages and horrors that were perpetrated west of the Alleghanies during the eighteenth century and the beginning of the nineteenth. I shall limit my chroncles to some of the most appalling instances. My scenes are mostly prior to the close of the eighteenth century. Much that I bring forward will be new to the world of 1892. In approaching the subject, it is proper to say that there have been exaggerated stories of Indian massacres. I have therefore confined myself to official reports and to records made at or near the times of the occurrences. Some of my details are from the mouths of eye-witnesses, and I have consulted only authentic histories.

It has been understood that the austerity and apparent spirit of domination of the British displeased the Indians so much that there never were, with few exceptions, very strong ties of friendship established between any of the tribes and that people. On the other hand, the French are said to have called them brothers, and in the main to have treated them as such. The king of France, in common parlance among all the tribes was their "father;" and, by a very legitimate consequence, the English stood to them as enemies; and hence, after the latter gained the control in Canada, and subdued most of the French military posts of the west, the hatred of the Indians was aroused, and plans for the destruction of the English race were incubated.

Chief Pontiac, though an Ottawa, was a controlling spirit among all the western tribes. He acquired the authority almost of an emperor. He was in every respect a most wonderful man. He was tall and dignified in mein, and in strategy and shrewdness unequaled. He was never known to have been outwitted but once.

The military and trading posts extended from Pittsburg along the lakes and western rivers as far as St. Louis, including the Maumee, the Miamis, Illinois, and Wabash rivers. The precise date of many of the tragedies which here follow cannot now be given; but they took place between the middle and close of the eighteenth century. The final attack on the English posts and settlements, which was secretly planned by Pontiac, took place, or was planned to take place, simultaneously throughout the extent of country lying between Pittsburg and St. Louis, extending over and including the whole of the northwest territory. To fully arouse the tribes, Pontiac gave out that the English were planning their destruction.

Several outrages were committed before the culmination of Pontiac's plot. It would relieve the horrors of these massacres to some extent if one could be free from the suspicion of French interference. Unfortunately, there are evidences to show, not only that they were privy to these massacres, but that they aided in the bloody work. Several instances show their co-operation.

Among the posts then held by the English was a very important one at the mouth of the Maumee. An Indian woman came into the fort, apparently in great distress, and said there was a white man dying in the woods, but a short distance away. Her seeming earnestness and sincerity, coupled with her tears, worked upon the commandant, who without the least suspicion call several men to accompany him and bring the man into the fort. The woman adroitly led them into the ambush, where a volley of rifle balls killed every man, when instantly a host of concealed savages sprung from their cover, and rushing into the fort with demoniac yells, killed every man in it thus exterminating the garrison.

There was a large trading port at Presque Isle. It was an important point for the purchase of furs and peltries. On a certain day these Indians came to the fort representing themselves as belonging to a large company of hunters, and that they had several canoes loaded with skins in a cave near by, and they wished to dispose of them. The commander, anxious to make a speculation, at once took a number of his men and proceeded to the cave for the purpose of purchasing the cargo. A few hours after, 150 Indians came to the port, each laden with a heavy pack of skins. They stated that the officer had purchased the skins, and they had come to deliver them. This all seemed in order. They were directed to deposit their burdens on the ground, when instantly the packs fell from their shoulders, revealing the concealed weapons, and at the same moment a stunning savage yell burst upon the unsuspecting and astonish men, who were helpless. With the ferocity of unchained tigers the savages sprung upon the terrified English with tomahawk, rifle and scalping knife, and within a very few minutes there was not a white man alive. The commandant and his men who went to make the purchase, were never seen afterwards, and of course met a similar fate. It was supposed the French were behind the Indians in both these slaughters.

Old Fort Michilimacinac was built on one of the islands of Lake Huron. It was likewise an important trading station. The strength of the garrison at the time of its fall by the hands of the Indians, I am not able to state, but there was a considerable force there. The fort stockade—covered about two acres of ground—its front faced on the waters. There were 30 cabins within the inclosure, which were occupied by an equal number of families. Michilimacinac was a headquarters and a stopping and starting place between Montreal and the more western posts. There were, at the time of its reduction, both English and French families residing there, though the place was held and manned by the English, who were largely the majority:

It was about the time of the birthday of King Louis of France; and several tribes of Indians, whose picturesque lodges and wigwams were scattered over the island, proclaimed that they would celebrate the occasion by enjoying the indulgence of their various sports, including a game of ball. This circumstance reflects suspicion on the French; for it is quite certain that the unlettered savages, could of themselves, have known nothing of the king's birthday.

The game of ball was purely an Indian game. Two stakes were set half a mile apart and the ball was laid half way between them, when the game was called a large number of athletic Indians gathered around the ball, armed with bats, and at a signal the game was begun. The plyers were divided into equal numbers, the whole number being about five hundred, great numbers were collected as lookers on, amounting, as was stated, to a thousand men.

The game consisted in driving the ball to one or the other of the posts. In causing the ball to fly through the air in all directions, nothing was more likely than that it might be thrown over the stockades and within the fort, as the play was just without.

At last the ball did fly over the pickets, when an indiscriminate scramble to recover it began, some scaling the pickets, while the crowd rushed in through the gates that had been left open for the occasion.

In less than a minute a thousand savages were inside the fort, when instantly they displayed their deadly weapons, and with a rush and yell fell upon the English (who were off their guard) and began an indiscriminate slaughter. Within a brief space of time every Englishman, including women and children, was killed and scalped, while the French were untouched.

Mr. Henry, an Englishman who had been promised protection by the Indians, asked it of a French woman, and was denied, and was afterwards locked up in a garret by a servant woman. The French mistress of the house having learned that Henry was so secreted, went and betrayed him. The Indians came, and the gleaming knife was drawn to be plunged into his heart, when the savage recognized him and desisted. He said: "I will not kill you, I will adopt you in place of my brother who was killed by the white man." Mr. Henry was afterwards ransomed, and to his pen we are indebted for much history of those troublous times.

IN TRADING CIRCLES

Both at Our Home and Abroad.

Wheat Quotations for the Day—Price Current for Produce and Other Articles.

The Markets.

London wheat opened quiet and steady; corn rather easier. Liverpool wheat quiet, dull and lower; corn lower.

Liverpool received in past six days 358,300 bu. wheat, of which 105,000 was American; and 220,000 bu. of corn.

The receipts of wheat at seven principal western points to-day are 301,742 bu., compared with 234,390 bu. on the same day last year.

The receipts of wheat to-day at Minneapolis and Duluth are 175,039 bu., and from five other principal western points 126,703 bu. The receipts from all of above points in the corresponding week in 1891 were 234,390 bu.

The export clearances yesterday at four Atlantic ports were, wheat—198,914 bu., and flour—without Philadelphia—to an aggregate of 400,000 bu. The exports of corn was 385,668 bu., and of oats, 4,467 bu.

The Washburn Bill.

Yesterday we commented upon the fact that the intention of the Washburn bill was undoubtedly to suppress free competition in the purchase of grain of the farmers, and to reduce the number of dealers authorized by the law to sell for future delivery. The effect of the law is designed to confine that business to the farmers, and the interior dealers who may claim to have purchased what he may offer for sale. If this feature of the bill can be enforced its effect must be to widen the difference between producer and buyer. If only a limited class are invested with the right to sell for future delivery, it requires but slight knowledge of human nature to suppose that the dealer with this legal privilege will use it in purchasing his grain at the lowest possible price. Will these conditions tend to aid or depress the value of the farmers' productions?

Any man of sense knows that in the ratio that you reduce the demand—reduce the number wanting the same article—while the number of sellers is unimpaired, you will inevitably reduce the price. Any such restriction of competition in buying wheat immediately after harvest when all farmers are sellers and when great quantities are moved would reduce the price to the farmer 10c per bus. The farmers make the conditions bad enough now, by rushing into market millions and millions of bushels more than the market wants in the first three months after harvest.

How is it made possible to do this? No set of men will stand under such a load. Under present facilities the wheat is sold as it is bought—sold everywhere, in this country, in England and other importing countries. Restrict this selling by the narrow process of a certificate of ownership of the actual wheat, and you will witness its effect in lower prices. You cannot hamper commerce with statutory restrictions of any such kind, except that of honest dealing and fulfillment of contracts without adverse effects. We shall refer to this topic again tomorrow and show that all the laws that congress may pass on this subject will not bring about the result desired by Washburn, et al.

The markets To-Day.

Under the report of dull and lower markets abroad the wheat markets of this country opened lower, dull and weak. The items of news are of a bearish character. Foreigners are reported selling in New York. It is again reported that Russia will remove the prohibition on exports of grain in the spring. We believe it is a bare-faced pure invention, but all the same it has its effect. Later than opening cable reports a large decline in Liverpool and a very weak market. French crop reports are good, and there is a renewal of reports of increase in French duty. "It never rains but it pours," and it rains for the bears to-day.

Corn is somewhat easier, but seems cheap enough to us, at 50c bus. under wheat. Liverpool. Antwerp, Paris and Berlin are reported as closing lower.

In New York Jan. wheat closed 1 1-2c and May 1 3-8 lower. Jan. corn 3-8 up and May unchanged.

In Chicago, May wheat closed 1 1-8 lower; Jan. corn 1-4 lower, May unchanged; Jan., oats 1-8 lower

In Toledo we have had quite an active business in wheat trading, confined to the May future. Prices have been lower and the market weak under all the bear dispatches of the day. On the call May wheat sold at 95 3-8c. After the call May commenced at 95 1-2c, declined to 94 3-8c, and left off at 95c, a loss of 1 1-4c.

Cash wheat was not much in demand and the sales were confined to a few car lots. No. 2 soft sold at 90 1-2 to 89 3-4c and closed at 90c, a loss of 1 1-2c; No. 3 soft at 87c; No. 2 white at 88c.

Corn—No. 2 at 40 1-2c; No. 3 at 39c; No. 4 at $40 1-2c; No. 3 yellow at 40c. Nothing in oats or rye. Clover seed was about steady. Prime for cash and January at $5 55; March at $5 60 to $5 62 1-2, closing at $5 60; choice at $5 70.

THEY MAKE CLAIMS,

AND THEY ARE REASONABLE, JUST AND TRUTHFUL CLAIMS.

Training and Education Have Taught Dr. Copeland and Associates How to Cure Certain Diseases—Their Experience Has Shown Them That They Can Cure Them, and They Have an Undeniable Right to Claim to Cure Them.

It was an honest physician—a physician in regular practice, and a frank, sincere kind of a man, who, during a visit to Dr. Copeland recently, made use of a remark which was something like this:

"Doctor, you will pardon me if I say that there is only one criticism that I can pass upon your way of doing business. There is only one thing that I cannot understand. As I take it, you make clear and distinct claims; you state that you cure certain diseases. Now, I cannot understand how you can do this. To tell you the honest truth, I do not feel sure that I can cure anything."

The speaker in this case was entirely honest. He was a well educated physician, in fact was a classmate of Dr. Copeland years ago, and has devoted many years of his life to general practice, and stands eminently well in the community in which he practices. In spite of his assertion of his own lack of confidence in himself, he is successful as a practitioner. He was entirely honest in the remark above quoted, and he was just as honest when, a few minutes later during the conversation he said:

"Doctor, the fact about it is that a man cannot be a general practitioner any longer. Developments in medicine and surgery in the last ten years have come upon us so thick and fast that a man cannot cover the field; he cannot keep up with all that is new and useful and wonderful and effective in relieving suffering. He has got to be a specialist, in order to know what he is doing, and to be effective in his own work, he has got to confine himself to certain special lines of practice."

There had our friend hit the truth, hit it squarely and fairly, and in that remark had our friend explained his first remark, and his lack of confidence in himself.

The man whose work must cover the whole range of diseases to which the flesh is heir, and the whole compass of the theory and practice of medicine to-day, can well say that he does not feel as if he could cure anything.

The man who confines his work to certain special lines of practice to which he devotes his time and his efforts, his training and his intelligence for all his life,

Has a Right to Say,

Speaking from his experience, speaking from his knowledge of diseases, and speaking from the results to which he can point with pardonable pride:

"I can cure these diseases; I know whereof I speak; I have given my life to the treatment of these diseases; I understand them; I know how to cure them; let the results of my work speak for themselves in this community."

This is the position of thoroughly trained, experienced and successful specialists. There is no deception; there is no boasting; there is no untruthfulness about it. When Dr. Copeland and his associates say:

"We cure catarrh and kindred troubles; we do cure it every day, and we have been curing it for years in our practice," they are saying what they know is true; what the testimony of hundreds of reputable citizens in the community in which they practice say is true.

They do cure the troubles in their specialties, and the reason that they are able to cure them and are able to speak with such confidence is, that they devote their lives to them, and by study, practice and experience, understand how to be successful in them.

We believe that criticisms are often passed upon the claims of specialists which are honest ones. We believe that the criticism with which this article opens is an honest and fair-minded one, but we believe that it is based upon an erroneous conception of the work and the skill and the success of genuine specialists.

Now, just a word in conclusion of an entirely personal nature. There are doctors and doctors. There are specialists and specialists.

In the first place, two-thirds of the men claiming to be doctors in the country are

No Doctors at All,

Have no legitimate claim to the title.

A fair proportion of them have not a legitimate diploma of any kind. A still larger proportion are of a class that is aptly described by the following language from a recent medical publication:

"A boy gets tired of farm or workshop, packs his trunk and hies away to some cheap medical college for ten months, comes back and is ready to practice medicine. Each year 3,000 so-called doctors are turned loose to practice their ignorance on the public."

It is useless as well to enlarge upon the looseness which envelopes the requirements of medical practice in this country.

There are doctors and doctors; there are specialists and specialists; and of the specialists a large proportion are no doctors at all."

It is useless as well to enlage upon the amount of humbug with which the name specialist had been clouded within the last few years, but we have this to say as well for self-protection as well as the protection of the public.

Dr. Copeland and associates, after more than the usual time spent in the best medical colleges in the country, after an extended experience and training in hospital practice, after years of special work, study and experience in the lines of their specialties, have frankly and honestly offered their services to the public, have made and substantiated their claims, have proven their skill against all sorts of

Challenge and Opposition.

Their claims are those which they have a right to make; they are truthful, just and reasonable. They do cure the diseases which they claim to cure, and the reason that they are able to make these claims is that they have given their life to special study, special training and special work, and know whereof they speak.

They are able to say from the basis of columns of printed testimonials. "This is the work we do; these are the results we accomplish; let the public judge and let the profession judge, too, as justly and as deliberately as it may be able to."

A Toledo Instance.

"Yes, I have gained sixteen pounds since being under the treatment of Dr. Copeland and associates. Not only have I gained in weight, but I have become a different man entirely," said Mr. Wheeler Roscoe, who lives at No. 350 Fourth street, East Toledo.

"I had been troubled for a long time," continued Mr. Roscoe. "I had a tickling sensation in my throat; my head would stop up; my nose was almost always stopped up; there was an accumulation of phlegm in my throat; I would hawk and spit; my throat would get sore; I had pains in my chest—pains that would extend to my back; my back ached so at night that I could not sleep; my head would ache constantly, and I would have spells of dizziness. I had a continual ringing and buzzing in my ears; in short, I suffered all the symptoms of aggravated chronic catarrh.

Wheeler Roscoe, 350 Fourth Street.

"I had been reading of the notable success of Dr. Copeland and associates and I made up my mind that if they could help others, they could help me. I called at their office, 706 Madison street, and I saw at once that they knew how to handle my case. I placed myself under their treatment, and, as I said, they have made an entirely new man of me. The symptoms I have told you of are all gone. My general health is excellent. I am still gaining in weight, and feel like telling everybody of the great good Dr. Copeland and associates have done for me. My advice to sufferers is, to go and see them. What they have done for me they can certainly do for others."

That Awful Disease.

Petersburg, Ind., Aug. 8, 1890.

Dr. Bergen, City:

Dear Sir—I have been a victim to that awful disease known as asthma, all my life, and very often I would be down with it—not able to be out of the house—and have tried everything I could hear of, but they never did me much if any good. I was finally persuaded to try your cure. So, after taking a few bottles of it, I was entirely free from asthma and have not had any since and don't feel that I ever will. I always keep a bottle on hand, but don't think I will ever have occasion to use it. I can cheerfully recommend it to all sufferers of asthma.

Believe me your true friend,
MALLE LAMB.

DOCTORS FRANCE AND OTTMAN,

Formerly of New York, now the Celebrated Examining Physician of the France Medical and Surgical Institute, Columbus, Ohio, by request of many friends and patients has decided to visit Toledo,

Dr. France will visit Toledo, Wednesday, Jan. 20. Dr. Ottman will visit Toledo, Saturday, Jan. 30.

Consultation and Examination Free and Strictly Confidential in the Private Parlor of the Burnett House from 10 a. m. to 9 p. m., one day only.

The Doctors describe the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. Their diagnostic powers have created wonders throughout the country.

The France Medical and Surgical Institute of Columbus, Ohio, is the only Medical Institute in the State Incorporated with a Capital of $300,000.00.

FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, fear, or confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases, and we get few which have not baffled the skill of all the home physicians, have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

Persons ruined in health by unlearned pretenders who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately. Delays are dangerous.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risks incurred.

Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE. Nos. 38 and 40 W. Gay St., Columbus, O.

Before they got **Sapolio.**

the proverb ran—"The pan says to the pot, Keep off or you'll smutch me."

If your grocer sends you anything in place of SAPOLIO, send it back and insist upon having just what you ordered. SAPOLIO always gives satisfaction. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. Everything shines after it, and even the children delight in using it in their attempts to help around the house.

OHIO YACHT CLUB.

Some Points on the Club's Financial Condition.

All is Not Harmony, but the Breakers May be Tided Safely Over.

Some misunderstanding has occurred in the Ohio Yacht club and several stories regarding it have been published that place the club in a rather bad light.

A Bee called on Col. C. H. Voute, collector for the club, and asked for some statement regarding the financial condition of the club.

"I understand that it is true," said he, "that Commodore George W. Bills has been asked to resign on account of this trouble in the club, but I can not tell what the outcome of that will be.

"Regarding the finances of the club it is true that we owe some money, which from a strictly business standpoint should be paid. It is also true that there is considerable money due the club for semi-annual dues and other sources. The dues are payable every six months in advance, and there was quite a sum of money due for back dues. Since I have been made collector for the club I am making an effort to get this money, and it is coming in at the rate of $50 to $75 per day.

"I can say that if the members will only come forward and within the next two weeks pay all that is due the club, we will have enough money to clear every dollar of indebtedness. I think the members should stand by the organization in its time of need and do this. Otherwise the club is in splendid condition."

TOLEDO CLUB'S ANNUAL.

The Matter of Entertaining the International Press League Delegates Considered.

The annual meeting of the Toledo club was held last evening. The following directors were elected: J. B. Ketcham, 2d, W. L. Hoyt, E. L. Southworth, Frank Zahm, W. A. Gosline, and D. V. R. Manley. An amendment to the constitution regarding the method of electing directors was adopted. Messrs. J. K. Hamilton, N. H. Swayne, E. D. Potter, Jr., Rathbun Fuller and C. G. Wilson were appointed a committee to revise the constitution.

The matter of entertaining the delegates to the San Francisco meeting of the International Press League on their return trip was brought up, and it was unanimously decided to unite in welcoming the visitors. A committee consisting of Robinson Locke, Geo. H. Ketcham, A. L. Spitzer, J. C. Bonner and Wm. Robinson was appointed to co-operate with the Press club.

Mr. Boyle read Toledo's invitation to the delegates at San Francisco yesterday and a committee was appointed to look into the matter of trains, etc., and see if the stop over could be conveniently made. The delegates have been simply deluged with invitations from various cities and if that of Toledo is accepted it will be a feather in the cap of the Future Great.

The Produce Exchange met this morning, and it was the unanimous opinion that Toledo should do everything in its power to bring the newspaper delegates here and entertain them to the best in the land while they were here. The following committee was appointed to act in unison with the Press club and Toledo club committees: Frank King, F. N. Quale, T. A. Taylor, J. H. Bowman and E. L. Southworth.

WHO IS TO BLAME?

The City Will Have to Pay Dearly for Negligence.

The caving in of Lafayette street between the bridge and Ottawa street last spring, together with the fact that the city allowed the earth to remain piled mountain high in the street during the entire summer, will be a source of expense to Toledo. To say nothing of the inconvenience arising from keeping the bridge closed until a short time ago, claims have already been presented, and others will follow, for damages resulting. Grasser & Brand are out $1,033.45 for repairs to their building on one of the corners. The Ames-Bonner building, owned by the Connecticut Mutual Life Insurance company, represented by Baker, Smith & Baker, was damaged in the sum of $953.32, and it is understood the Ames-Bonner company have also a bill for repairs. There has been negligence by some department of the city government, and the city will be compelled to foot the bills.

LAST SAD RITES.

Rev. Father Koerling Laid to Rest This Morning.

The remains of the late Father Koerling laid in state at St. Mary's church yesterday and until 10 o'clock this morning, when high requiem mass was celebrated. A large concourse of parishioners, Catholics of the city and friends of other denominations made their pilgrimages to the church to pay their last tribute to the good man. At the funeral this morning all the local priests were present and many from the surrounding places. The service was most beautiful and impressive. The remains were laid to rest in Calvary cemetery. So ends a life that was fraught with love and kindness for fellow man, a life consecrated to the work of his Father, to whom he has at last been called.

CANADA'S GOVERNOR-GENERAL.

Ottawa, Ont., Jan. 15.—English advices state that there is some speculation as to the probable successor to Lord Stanley as governor-general when his term expires next year. Lord Wolseley's name is mentioned. He is at present commander-in-chief in Ireland but Lady Wolseley's health makes him anxious to change and it is said he would be willing to come to Canada if the position were offered him, rather than take the Indian command.

IT IS PRESIDENT FITCH.

The Ohio Farmers Elect Officers.

A Platform Adopted That is Warranted Not to Rip, Ravel or Lag at the Knee.

Zanesville, O., Jan. 15.—The state convention of the Farmers' alliance adopted its platform and elected officers.

The resolutions, as reported by the committee, declared for free silver, a circulating medium of $50 per capita, election of president and senators by direct vote of the people, a graduated income tax, denounced trusts and railroad passes to state and county officers, demanded further reduction of salaries of county officers and district enforcement of anti-adulteration laws, and opposed the drink traffic for beverage purposes as well as any action tending to destroy the Christian Sabbath.

A. J. Carpenter offered the 2 per cent. land loan plank and government control of railroads and telegraphs as a supplementary report which occasioned a vigorous fight.

Alfred Whitaker, of Cuyahoga, proposed a substitute declaring that the farmers asked for no class legislation, which was defeated.

The question was finally disposed of by adoption of the resolution by G. E. Lawrence, of Marion, declaring for the postal savings bank system. The platform was then adopted as a whole.

During the discussion some disturbance was created by S. V. Rohrback, of Seneca, calling attention to the fact that Eli Benfer, of Tuscarawas, who was loudest in shouting for reform and the 2 per cent. loan, had voted in the legislature for Calvin S. Brice, but President Likens sat down on personal politics.

All sub-alliances which desired secret work were granted its use on conditions of its adoption by a two-thirds vote and the secret work was given delegates at a special meeting to-night.

The offices of secretary and treasurer were consolidated and the salary fixed at $800.

Officers were elected as follows: President, F. E. Fitch, Belleview, Sandusky county; vice-president, Edmund Scribbens, Cuyahoga county; secretary and treasurer, Rev. Joshua Crawford, Galion; state lecturer, G. A. Wise, of Summit county.

INFERIOR GOODS.

The only safe way for purchasers is to insist on having the genuine article, and not allow themselves to be swindled by having plasters said to be "just as good," or "containing superior ingredients," imposed upon them. These are only tricks to sell inferior goods that no more compare with Allcock's Porous Plasters than copper does with gold. One trial of Allcock's Porous Plasters will convince the most skeptical of their merits.

The eminent Henry A. Mott, jr., Ph. D., F. C. S., late government chemist, certifies:

"My investigation of Allcock's Porous Plaster shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."

Ask for Allcock's, and let no solicitation or explanation induce you to accept a substitute.

SYMPATHY FROM ABROAD.

London, Jan. 15.—A dispatch from Cairo says that at a meeting of the British residents there, Sir Evelyn Baring, the British minister, presiding, a resolution of sympathy with the Prince and Princess of Wales and with the queen, on the death of the Duke of Clarence and Avondale, was passed yesterday.

STILL DOING BUSINESS.

Early yesterday morning we met with quite a serious loss of a part of our plant by fire, the damaged part consisting of our pattern store-room, woodwork department, foundry and a portion of our machine shop, all of same being in our old frame buildings. Our new shops, having heavy fire-walls, were not greatly damaged, and we were able to commence operations at the usual time yesterday morning. We would inform our trade that we are in a position to fill all orders promptly, and would solicit a continuance of past favors. We now have a force of men at work replacing the damaged parts and will shortly be in even better shape than before the fire. Very truly,
N. Haughton Foundry & Machine Co.

FIRE LADDIES TO BE COPPERS.

The Mayor Will Divulge a New Idea at the Next Police Board Meeting.

At the next meeting of the board of police commissioners, Mayor Emmick will submit a proposition to extend police powers to all members of the fire department. This will be done in order to further the protection of property during a fire, and the better regulation of the crowds. The fire board has been discussing the advisability of putting out ropes to keep bystanders back, and it is very probable that some conclusion will be reached in the matter before long.

THE UNIFORMED FORESTERS.

An enjoyable evening was spent last night by the members of the uniform branch of the Foresters. A portion of the time was taken up with addresses, music, and the installation of officers. Will Abbey and W. H. Tucker were the principal speakers. After the work a "smoker" was indulged in. The officials are: Commander Sol H. Calisch; vice-commander, Jos. A. Gessner; adjutant, Jos. M. Justen; paymaster, Ben Steck, sergeant major, E. H. Stewart; drill captain, Sam F. Tanner, first lieutenant, Nick Roth; second lieutenant, Martin Fells; first sergeant, Harvey Van Wormer; second sergeant, George Campey; M. at A., Geo. J. Gross; surgeon, Dr. Chas. J. Henzler.

ATHLETIC EXHIBITION.

Jack Kerwin has established a gymnasium on the corner of Adams and Water streets, and it was opened to the public by a very clever entertainment last evening. The program consisted of several lively contested set-to's and other athletic exhibition. A novel feature was an illustration of the manner in which a fighting dog is trained for the pit. The noted black-and-tan "Patty" was placed in the harness and kept the big wheel going for 20 minutes, endeavoring to get at another dog tied just out of reach. The attendance was fair, and all present were pleased with the entertainment.

BAD FIRE.

The Toledo Cot and Wringer Factory Destroyed.

Long Fight by the Fire Department Through a Bitter Cold Night.

About 12:30 this morning fire was discovered in the large frame factory building of the Toledo Cot and Wringer company, on Milburn avenue, Auburndale. The flames broke out in the old part of the factory and despite the efforts of the firemen the entire factory was destroyed except the smaller office and warehouse building.

This factory is situated in the heart of a large manufacturing district, just opposite the Milburn Wagon works, with the large Metzgar Linseed Oil works just in the rear of the burning buildings. The night was a bitter cold one for the firemen and the blaze for a while had a most threatening aspect, but was prevented from spreading by dint of much hard labor. The firemen were obliged to work all night and the flames were not entirely extinguished until noon to-day. The water froze whenever it fell outside of the flames and the neighborhood presents an iceland scene.

The total loss will be about $17,000, fully covered by insurance in the following companies represented by Barker & Frost:

L. & L.	$ 1,500
Norwich Union	1,000
Hartford	1,000
United Firemen	1,500
St. Paul	1,000
Western, of Toronto	1,750
Syndicate	1,500
Citizens', of Pittsburg	1,000
Firemen, Dayton	500
Lion, of London	1,000
Scottish Union & National	1,000
Phoenix, London	1,000

Williamsburg City	1,000
Springfield firemen	1,000
Guardian, London	1,000
Greenwich and New York	1,000
Total	$17,500

This fire makes another good argument for the annexation of Auburndale to the city of Toledo, for no one can calculate the damage that might have followed this fire had it not been for the work of the Toledo fire department, notwithstanding the fact that this building is outside the city limits.

EAST SIDE FIRE.

Warehouse and Ice House Burned to the Ground.

A frame warehouse and barn belonging to J. D. Chamberlain, Southeast Toledo, near the D. & M. elevator, was destroyed by fire between 10 and 11 o'clock last night. The fire department could not arrive in time to save the building, but the prevented the flames from spreading, except to an ice house adjoining, which was also burned.

Some 70 tons of Hubbard squashes were destroyed in the flames and a horse was burned to death.

The loss is estimated at $3,000 about half insured.

The Franklin county grand jury is investigating the bribery stories that are floating around republican circles in Columbus.

Suppose somebody should find time to compute the cost of Uncle Jerry's bureau and put alongside the figures the listed benefit it has conferred on farmers?

Russia's standing army numbers 1,000,000 men. Perhaps if there were not so many non-producers to feed the toilers might not be starving to death.

The president is very slow to fulfill his promise to present the Chilean correspondence to the anxious and waiting public. What is there for him, in the retention of it?

There is a lull in Canadian newspapers of talk about corruption in United States politics. They are having "cess pools," "boodlers" and the like of their own sufficient to keep them busy.

The Ohio house has adopted the resolution to discover Senator Brice's legal residence. If the fools will address him care United States Senate, Washington, D. C., they will probably receive a reply.

The Russian government has already appropriated £55,000,000 for the aid of its starving peasantry, and more is needed. A portion of this expended for them in seed and fuel would have averted the calamity.

The story of a puma hunt near Leipsic, which somebody worked through the press associations, and as special matter to the Enquirer, is pronounced a bold bad fake prepared by a sensational writer in Leipsic.

If six mammoth whalebacks are to be built in the Boston shipyards for the Canadian Pacific Railway, Great Britain should follow the example of our pinchbeck law makers and clap a tax on somewhere to put a stop to it.

We have had nearly a half-century of Indian agency management, and nearly as many years of national disgrace in consequence. Cannot the Indian bureau and the pension bureau be overhauled? They are damning spots on our fair escutcheon.

The Philadelphia Times, speaking of the treatment of the McKinley tax law by the present congress, makes the following neat aphorism: "The measure of statesmanship is not so much in showing what ought to be done as in effecting what may be done."

It was a great compliment paid ex-President Cleveland, by the colored Catholics, recently in session in Philadelphia. Delegate Thompson spoke of him as "the one grand man for all the people without distinction as to color, or condition," and the sentiment was applauded.

If the tariff is not a tax upon the people, why did the removal of it from sugar cheapen that commodity? Is the bounty also a tax And who pays it? In the latter case the payer and the payee are plainly distinguished; hence there cannot be more indulgence in that direct kind of unfairness.

The pious New York Mail and Express quotes its usual bible text of good will and universal brotherhood, and under it exultingly informs its readers that "The present unprecedented business disturbance and financial depression in England are largely attributed to the effect of the McKinley tariff by those who discuss the situation and the populations of many of the mining districts are upon the very verge of starvation."

Congressman Tom Reed, on the floor of congress, vigorously protests against taking his own medicine and demands time for debate upon questions before the house. This is true republican consistency: one rule for our party and another for the bothersome democrats. He isn't so gay a fellow as when he wore the sash and blazer and pounded the heads of better men than himself, simply because he was temporarily in position to do so. His record for unfairness as speaker will return to plague him so long as he is a member of the body.

It must be humiliating to President Harrison to witness the Blaine movement all over the country. The selection of delegates to the national republican convention from Washington and Philadelphia this week are striking examples of this aggressive Blaine campaign. In both cities Blaine was urged by resolutions as the man for the hour. Except there be an understanding between the president and his secretary the situation is one of embarrassment to both parties. Not since Chase sought the republican nomination against Lincoln in 1864 has there been such scheming inside the executive household. If Blaine's health permits he will undoubtedly be the republican candidate this year, though his nomination now would be as fatal to republican success as it was in 1884. If Harrison shall be the candidate, even Ohio will give a democratic majority. Viewed in any light, the democrats are well satisfied with the situation.

Under the caption of "Dying Hard," the Cincinnati Times-Star pays its republican respects to the Foraker crowd:

It has been noticed that the gangsters are making a great effort to explain their defeat in the senatorial contest, or rather to hoodwink the public as to the causes of the recent overthrow and save themselves from a too poignant humiliation.

They are striving at Columbus to show that the methods familiar to their own secret circles were practiced by the republicans favoring Senator Sherman. This accounts for the sensational hue and cry about alleged bribery and also the "developments" in regard to the republican campaign fund. It is the gang's desire to smirch Mr. Sherman and his supporters, and especially to "get even with" Chairman Hahn of the state committee, who was an earnest worker for the senator's re-election.

This outbreak tends rather to create amusement than to arouse any serious interest, even among democrats who understand the gang tactics. It is a common case of guerilla politics, and was expected of the Cox-Kurtz-Griffin crowd. Time will show how little they will profit by it.

Blocks of Five System.

Dr. Depew says the officials of the New York Central desire to study the block system. Then let them inspect the Indiana election returns for 1888.—Washington Post.

THE WASHBURN BILL.

President Frank King Wields His Pen on the Measure.

In yesterday's grain circular issued by C. A. King & Co., of this city, the Washburn bill just introduced into the United States senate is discussed by the firm as follows:

Our boy Solomon says it is a measure to enrich millionaire millers and millionaire speculators. It puts a prohibitory tax on trading in grain futures. It does not include all commodities. The Minneapolis millionaire millers' syndicate, of which Senator Washburn is a member, grinds only wheat. If they can get the bill passed they will make millions before it could be repealed. They want no competition in buying from the elevator owners, smaller millers and exporters, who buy with borrowed money and who would be unable to secure from any bank over half of what they pay, were it not for the trade in futures affording the best of protection and making grain receipts the most desirable of collateral.

Over half of the farmers of this country are compelled to sell two-thirds of their crop soon after harvest. This generally causes the lowest prices about August. Exporters, millers, warehousemen and speculators realize this and generally buy freely about this time, making contracts for future delivery extending into the winter months. They have neither the money nor the room to take the actual wheat and would be unable to buy except for current wants were it not for the trade in futures. This provides a demand for many millions when it is needed the most and prevents prices being depressed as much as they would be if the farmers were at the mercy of the millionaires, who would demand a much larger margin in buying if they had less competition and no trade in futures to protect themselves.

Can it be that those so-called "alliance circulars" issued from Minneapolis last fall were part of the scheme? They maliciously and grossly exaggerated the shortage abroad and predicted $2 for wheat. They advised the farmers to hold a crop which had yielded 250,000,000 exportable surplus. They knew that anything like such fabulous prices were improbable and that the disappointment which would follow would make many farmers ready to aid in passing such a bill as is proposed.

There may be evil features about grain futures and there are hypocrites in some of our churches, but no one would think of prohibiting the righteous from indulging in their religious services on that account. Congress can aid the producers and this country better by devoting their energies to reciprocity and building up a home market for the products of the farm.

HOW DO YOU SPELL EGG-PIT?

A recently appointed school commissioner visited a public school in the vicinity of Varick street not long ago, writes Joe Howard, and proceeded to examine the scholars. A class of the larger boys having been arranged the commissioner said: "First boy, spell egg-pit."

"E double g-p-i-t, egg-pit," responded the lad.

"Rong, set down. Next boy," said the school commissioner.

The second boy, seeing how his comrade fared, ventured to add another t, as follows: "E double g-p-i double t, egg-pit."

"Rong, set down," from the school commissioner. "Next boy," with no better result.

The teacher, now fearing the whole class would go down in disgrace and egg-pit, asked the redoubtable school commissioner to be allowed to see the word, as the scholars certainly did not understand it, whereupon the school commissioner showed "Egypt," which the lads had no difficulty in spelling correctly.

"How do you spell Egg-pit?" is in the air in the vicinity of the school, and a friend of one of the scholars, residing in Harlem, was nonplused yesterday by receiving a postal with the headline, "How do you spell Egg-pit?"

TIMELY WARNING.

We desire to warn those of our readers who may be inclined to trust the man who is going around the streets of Jonestown claiming to be John the Baptist. We have taken great pains to look the matter up and know that he is not what he purports to be. John the Baptist is dead. The real John the Baptist didn't have a full bloom on his nose, a red bandana tied around his neck and a pint bottle in the caboose pocket of overalls, as the man we saw yesterday.—Hot Springs Tomcat.

This Saying And That.

Governor McKinley, very wisely, held entirely aloof from the senatorial contest.—John Sherman.

Well, the battle is over, and Major McKinley can proceed to fulfill his promises as to the appointments under his administration. I know what they are, and I want him to deliver the goods promised in the interest of Sherman.—J. B. Foraker.

If Not, Let Them Try Again.

Evidences multiply that the Tammany bugaboo is to be injected into the coming presidential contest by our republican opponents. And if it is one might as well look to see the state of New York go democratic by 100,000 majority. One trial of that boomerang ought to satisfy the most bigoted partisan the republican organization can boast.—Newburg Register.

The Cause Is Safe.

There has never been any doubt among reasonable men that the cause of tariff reform would be as safe in a democratic house organized by Mr. Crisp as it would be or could be in a democratic house organized by Mr. Mills. An argument to the contrary would be to admit that there is not much in tariff reform after all, if the slightest breeze will cause it to miscarry.—Atlanta Constitution.

La Belle Reviere.

A view of the great Ohio river these days and nights is encouraging and inspiring. The water is deep enough to cover all obstructions. The big vessels steam up and down without hindrance. Each of them carries more freight than a dozen railway trains with all their noise and fuss. Providence be praised for our noble river.—Evansville Journal.

Every Citizen's Right.

Col. Wm. R. Morrison announces that he is still a candidate for president. That's right, colonel; every free-born American citizen has a perfect right to consider himself a standing candidate for president.—Chicago Mail.

The C. J. Is Anxious.

The president really ought to be relieved of the retaliatory business in reciprocity. He has senators to elect, postmasters to appoint, and ducks to slaughter; and he must keep an eye on Uncle Jerry Rusk, too. A president may be overworked.—Courier-Journal.

Real Reciprocity.

The French government is being urged to reduce the duty on our kerosene. The nation that sent us Liberty Enlightening the World should have the liberty of getting our light of the world in return, and on the lowest terms.—Philadelphia Record.

Where the Hitch Comes.

Earnest McKinleyite—Every cent of money raised by the tariff finds its way back into the pockets of the people.

Disgruntled Voter—That's true enough. The hitch is that it doesn't strike the same set of pockets.—Puck.

Woman's Rights.

The Washington Post says the women of Alabama have not been given the right to vote, but they seem to have acquired the privilege of being lynched. They have always had the right to be punished.—Indianapolis News.

The Way of the Transgressor.

The republicans of New York are having hard work to choose a successor to Platt, but they will have harder work if they do not choose a successor. Either way Plattism is hard.—New York World.

Give His Name to Posterity.

Secretary Noble has received a letter from a man in Boston, inclosing his certificate and relinquishing his pension on the ground that he stands in no further need of it.—Ex.

Expensive Peace of Mind.

Secretary Foster can proceed on his southern trip with an easy mind. There is nothing left in the treasury to steal.—Wheeling Register.

That the venturesome nature of youngsters frequently ends in death, as in the case of Johnny Langdon, who lost his life by skating too near an air-hole.

That the local legislators returned today to remain with their consituents until Monday. The whys and wherefores of the week's doings will be fully explained.

That republican knowing ones say the oil inspectorship will go to an ex-representative in the eastern part of the state, which means Governor McKinley will not allow "Coxie Old Boy" to return to his former soft snap.

THE CUT IN BEER.

Chicago, Jan. 15.—The cut in prices of beer inaugurated some time ago has become more severe. Up to the time that the English syndicate took hold of the breweries, beer sold at $8 a barrel. Recently some of the brewers outside of the syndicate cut the price to $5 per barrel, and it is announced now that a further reduction to $4 a barrel has been made. The price of beer stocks has been going down and rumors are in circulation that dividends are likely to be passed.

RIVERS ON A RAMPAGE.

Mobile, Ala., Jan. 15.—During the last 48 hours the Alabama and Tombigbee rivers have been rising rapidly, and at some places are about 40 feet above low water.

On the Louisville & Nashville road many washouts are reported. No trains have come south from Montgomery since Wednesday morning.

The weather is very cold, and snow fell all over the south yesterday.

HE KEEPS THEM GUESSING.

Montreal, Jan. 15.—All sorts of rumors have been flying about regarding the probable action of Mr. Chapleau and other members of the Dominion cabinet in reference to recent ministerial changes. It was asserted that Mr. Chapleaus had resigned and that he would take his seat in the next session of the house of commons as an independent member. This statement is now absolutely denied.

CONVENTION OF BEEKEEPERS.

Ashtabula, O., Jan. 15.—The twelfth annual convention of the Northwestern Ohio, Northern Pennsylvania, and Western New York Beekeepers' association will meet at Ashtabula, O., January 27 and 28. A good program will be discussed by practical beekeepers. The question box will be a prominent feature. All interested are invited to attend. Ladies are especially invited.

IRON ROOFERS ELECT OFFICERS.

Canton, O., Jan. 15.—The National Iron Roofers' association elected officers as follows: President, J. C. Baltel, of Piqua, O.; Vice-president, Charles Conner, Louisville, Ky.; Secretary and Treasurer, R. J. Hydman, Cincinnati. Wheeling was selected as the next place of meeting in January, 1893.

DIED FROM HIS INJURIES.

Nyack, N. Y., Jan. 15.—James O. Wanamaker, one of the most prominent citizens of the town of Ramapo, who was crushed by a train on the Erie railroad at Sterling on Monday night, died from his injuries last night.

CHARGED WITH FRAUD.

Lisbon, Jan. 15.—Marquis da Foe, a member of the railroad board, has been arrested and charged with financial irregularities. He was released upon furnishing bail in £56,000.

PRUSSIA TO MOURN.

Berlin, Jan. 15.—The Prussian court will go into mourning for 10 days as a mark of sympathy for the loss sustained by the royal family of England by the death of the Duke of Clarence.

ABOUT PEOPLE.

Thomas A. Edison intends to visit St. Petersburg and will lecture at the coming electrical exhibition.

The latest of the "Boy Evangelists" is Harry Davenport, a youth of 19, who has been converting the sinners of Missouri.

Mme. Carnot, wife of President Carnot, of France, distributed $6,000 in practical charities during the recent Christmas festivities.

Alfred Wilson Barrett, the son of Wilson Barrett, the actor, is of a literary turn of mind and has gone into daily journalism in London.

The son recently born to Prince Frederick Leopold, of Prussia, is the twenty-fifth living prince of the royal and imperial house of Hohenzollern.

Mrs. Potter Palmer will go to Mexico and work Mrs. Diaz and the other women of Mexico up to the proper pitch of co-operation in the world's fair work.

Rev. Dr. Cuyler celebrated his 70th birthday last Sunday by preaching a sermon in Brooklyn from the text: "The days of our years are three score and ten."

Col. John A. Cockerill, of the New York Morning Advertiser, emphatically contradicts the story that he has been offered the managing editorship of the Herald.

Mrs. Augusta Evans Wilson is living quietly at Spring Hill, a suburb of Mobile. The author of "Beulah" is said to be loath to welcome Amelie Rives as a rival in southern literature.

Mary A. Greene, LL. D., a member of the Boston bar, is giving a course of six lectures at Lasell Seminary, Auburndale, Mass., which are said to be exceedingly instructive and entertaining. Her subject is "Business law for women."

GRIFFIN HAS THE FLOOR.

He Denies That He Made Bribery Charges.

He Will Testify Before the Grand Jury.

A Telephone Bill in the House—General Legislative Matters of Interest to Readers of the Bee.

Columbus, Jan. 15.—(Special)—Hon. C. P. Griffin arose in the house yesterday to speak on a question of privilege. He denied that he had made the charge on the floor of the house that Senator Sherman had bought his seat, and denied that Mr. Gallagher made the remarks attributed to him. Mr. Griffin also said that his talk with Gallagher was of a private nature and intimated that the newspapers had no concern in it.

He was courteous in his statement and is accorded the benefit of his denial.

The Cleveland Plain Dealer correspondent wired his paper a report of the occurrence as printed in the Bee dispatches, and the correspondent to-day adds to his report to that paper the following:

"Mr. Griffin is accorded the benefit of his denial, but the Plain Dealer correspondent received his information from a republican member of the house, who occupies a seat close by the gentleman, and the question of veracity rests between the statesmen on the majority side."

Telephone Bill.

Mr. Price has introduced a bill regulating telephone charges. It makes a classification of all cities into those of 25,000 and more population to those of less than 25,000.

In the former charges for private lines are limited to $4 and for lines on which there are two or more telephones to $3 a month for each telephone.

In the second class cities the charges are limited to $3 and $2.50 respectively.

Charges for conversations between different cities are limited to 15 cents for the first five minutes and 5 cents for each additional period of five minutes.

Contracts for the use of telephones shall be made for not less than six months. Violations of the act by telephone companies is made punishable by a fine of not less than $100 for each offense.

The Grand Jury Case.

The grand jury is still hearing evidence in the alleged bribery case. Senator McConica and C. P. Griffin have been called on to testify. Mr. Tiernan, a correspondent, and Representative James have been before the jury.

The substance of the evidence already submitted is said to relate to indirect promises made to members of positions under the administration.

Gen. Robinson's Death.

The house this morning adopted a resolutions on the death of General Robinson, and ordered the clerk of the house to send a copy to the widow and family.

Contingent Purposes.

Mr. Taylor, of Champaign, introduced and the house passed a bill making appropriations for senate and house contingent purposes.

Public Lands.

Mr. Price this morning offered for adoption a resolution of the same tenor as the Geyer resolution: to find out by what right persons and railroads occupy certain streets in Cincinnati that were deeded by the state for sewerage and highways.

It is expected the senate and house committee will work together.

Where Is the Journal?

Republicans having secured everything in sight in the shape of offices, it remained for somebody to create commotion over the loss of the senate journals of last Thursday and Friday. Diligent search all forenoon has failed to give any trace as to where they have gone.

Hereafter, the clerk says, nobody but newspaper men having a right on the floor of the senate will be allowed to handle any official papers.

New Jury Bill.

Senator Beebe has introduced a bill to amend section 6549 so that both parties in a suit before a magistrate can be authorized to select three persons—each to act as jurors in jury cases.

This, while relieving the magistrate of the selection of jurors empowers him to pass on their qualifications.

If he decides that they are not qualified, parties to the suit may call others to act, but if they fail to do so the magistrate will do so for them. Both houses have adjourned until 4 o'clock Monday afternoon.

HARRISON AND BLAINE.

The new oath-bound Blaine Reciprocity League is strictly secret—like the Harrison-Blaine understanding.—Philadelphia Record.

Blaine and Harrison may be dwelling together in peace and harmony but one thing is certain. Their respective followers are not.—New Delta.

If Mr. Blaine were elected, and should ask Mr. Harrison to take charge of the state department, there is no reason why the request should not be met with ready acceptance and popular approval.—New York Tribune.

It is a strange sort of "understanding" between the president and his secretary of state, that allows wrangling and scrambling for delegates to district conventions such as, according to the report, took place in Indiana.—Springfield Republican.

The humiliating feature of it to the president is that, while he is very much a candidate, and Blaine will not acknowledge that he is a candidate at all, the support of Blaine among the republican politicians is such as to put Harrison at his mercy.—Boston Herald.

THEY WERE RE-MARRIED.

Justice of the Peace Enright this morning married R. A. Hartman and Stella Kenney, for the second time. He performed a like service for this couple not very long ago. It seems the bonds forged on this occasion became uncomfortable, and the couple went into court and had them severed. Not long after they concluded that the last step had been a rash one, and that "with all our faults we love each other still," so back they went to Justice Enright to have the broken links forged anew.

HARRY KING IN IT FOR HIMSELF.

Mr. Harry E. King has severed his connection with the law firm of Swayne, Swayne & Hayes, to take effect April 1st., after which Mr. King will embark in the profession for himself. Mr. King has been connected with this firm for a number of years, and the relations in every particular have been of the most pleasant nature.

Mr. King is one of the most popular young men of Toledo. He is warm-hearted, generous to a fault and has a good word ,and a cheerful smile, and his host of friends both in and out of the profession wish him unbounded success in his undertaking.

PROSTRATED WITH GRIEF.

London, Jan. 15.—An unofficial report has been issued which announces that the Princess of Wales and Princess May are prostrated with grief at the death of the Duke of Clarence.

MARRIED ON A DRAWBRIDGE.

"I came very near disturbing a marriage in the lower bridge last night," said Bridgekeeper Allen yesterday. "About 8 o'clock I noticed several buggies loaded with darkies drive in the bridge. They all stopped beneath the first light and began getting out. Thinking it was a crowd of drinking people and they had stopped to drink in the bridge, I approached them for the purpose of making them move on. When within a few steps of the crowd, to my surprise I heard a minister in a very low voice repeating the marriage ceremony. Just then I caught a whiff of the bridal cologne and also sight of the shiny silk of the bride's costume. The ceremony performed, the party moved on, and I learned it was an Alabama couple that had eloped to the Georgia side to wed.—Columbus, (Ga.) Enquirer-Sun.

Listen to a Number of Interesting Papers.

Several Committees Appointed—The Delegates Will Visit Tim Leroux's Press and Go Home.

The program which had been arranged for yesterday morning was carried out yesterday afternoon, owing to the inability of a number of the delegates to reach the city before that time. The program opened with the renewal of membership and reception of new members, after which a report of the past season's work, the apple crop, stock of cider, vinegar, etc., was read, showing that the general apple crop of the country amounted to 35 per cent. of a full crop, except in southern Ohio, where it might have been 50 per cent.

The appointment of committee on exhibit resulted as follows: T. Leroux, Geo. Dixon and N. Hoose.

The condition of Ohio's Vinegar Law and its effect upon the market was commented upon by T. B. Hine and C. H. Struebe, and it was agreed that some plan must be adopted whereby violators of the law may be punished.

W. J. Green, of the Ohio Experimental Station, read an instructive paper on Insects and Fungi Injurious to the Fruit Crop, and How to Destroy Them. He gave a recipe for spraying which has been successfully used during the season. He stated that the fungi developed best in the wet season, and that the failure in apple crops was largely due to this rather than to frosts; but two instances being mentioned where an entire crop of apples were injured by frost. The solution for spraying was also recommended for other fruit trees.

A resolution of thanks was tendered Mr. Green for his instructive and interesting paper.

Owing to the obsence of Mr. J. D. Carpenter, the subject "Should the pure fruit industry be represented by a special exhibit at the Columbian exposition?" was laid over until evening, a paper by Mr. McMasters being read in its place.

Mr. Tim Leroux was appointed to invite Hon. Harvey Platt to be present at the evening session and give his ideas upon the question of a special exhibit of pure fruit at the exposition.

A resolution was passed that a committee of three be appointed who shall have charge of the securing of an appropriation from the state legislature for the use of the state food commissioner in prosecuting violators of the law prohibiting adulterating of food, and the selections were as follows: James Carlisle, Mt. Gilead; Dr. A. B. Mason, Toledo, and C. H. Struebe of Sandusky.

At the Evening Session

A letter was read on the Paddock pure food law, now before the United States senate with a prospect of passage, and the president and secretary were instructed to write to the Ohio senators asking their support of the measure.

C. G. Hampton gave an interesting paper on New and Improved Machinery.

A committee was appointed in reference to making the organization more practicable, A. Tucker, T. Leroux and Dr. Mason to act as said committee, the committee to report at morning session.

A paper on the "Medical Value of Pure Cider" was read by Tim Leroux. He cited several cases where cider had been found beneficial to dyspeptics.

Joseph Day was appointed to act with the committee having in hand the formation of a national organization. The convention then adjourned until 8:30 this morning.

This Morning's Session.

The election of officers took place this morning and resulted as follows:

President—Wm. Miller, Gypsum.

Vice-President—H. T. Townsing, Newburg.

Secretary and Treasurer—W. F. Shuman.

It was decided to hold the next convention at Columbus, the second and third Tuesday and Wednesday in January, 1893.

Hon. Harvey Platt accepted the invitation extended him and was present this morning and gave his ideas on the pure fruit industry exhibit at the Columbian Exposition.

He stated that buildings and grounds would be secured for all exhibits of this nature. Pamphlets were left for further instruction. A vote of thanks was tendered Mr. Platt for information.

W. F. Shueman explained a device whereby improvement could be made in the manufacture of fruit butters, jellies, etc.

"Pomace and its uses" was a subject which called forth quite a discussion and was commented on by J. A. Patterson, who said that the best way to dispose of it was to feed it to stock, beginning by feeding a few pounds at a time and increasing the measure to half a bushel. He claims that there is nothing better for winter feed. It has also been successfully used as fuel, saving a vast amount of coal. It is also an excellent fertilizer.

"The condition of our apple orchards," said W. W. Farnsworth, "is not satisfactory, from the fact that not enough attention is given to pruning; it is either neglected or overdone." He then told the proper time for this work and also gave a few rules for making a successful crop.

A report of the committee, comprising A. Tucker, T. Leroux and Dr. Mason, was read and adopted, and is as follows:

First—We recommend that the name of our body be changed to that of "Cider Makers and Manufacturers of Fruit Goods."

Second—That our secretary be instructed to have printed 100 copies of a folder, containing a printed list of the names and postoffice address of all members of our association, and that each member be furnished a copy, and that it shall be the duty of each member having such list to give, to the best of his knowledge, any information when called upon to do so by any member whose name appears on said list, and to inform all others that they will be entitled to the information sought by sending $1 to our secretary.

That this report be printed in all cider makers' publications.

The query box was postponed as the different topics had been so thoroughly discussed that it was not thought necessary.

This afternoon the delegates will visit the Leroux press.

The members in attendance upon this convention are: J. M. Roney, Weston, Mich.; Ruben Moore, Piqua, O.; Jas. Carlisle, Mt. Gilead, O.; T. B. Hine, Toledo; M. D. Tyler, Seville, O.; Dr. Mason, Auburndale; H. F. Townsing, Newburg, O.; J. A Patterson, Savanah, O.; F. A. Sherman, Pemberville; William Miller, Gypsum, O.; W. F. Sherman, Fort Senica, O.; Tim Leroux, Toledo; Geo. Dixson, Toledo; C. G. Hampton, Detroit; Joe Davy, Collingwood; C. H. Struebe, Sandusky; A. Tucker, Ann Arbor; H. P. McMasters, Killburn, O.; Peter Ott, Mansfield N. Hoose, Perry; Geo. Keigtitley, Clarksville.

Notes.

Mr. Miller, of New York, was present, and made a few instructive remarks.

Mr. Foster, chairman of the Michigan organization, was also a guest.

On motion of Dr. Mason, the following resolution was adopted: "That Tim Leroux be appointed a committee to meet with the state board of commissioners of the Columbian exposition at its next meeting and request the commissioners to put the matter of an exhibition of our specialty in the hands of our committee."

SAFETY IN THE MIDST OF DANGER.

This would seem a contradiction—is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution is no certain defence against the dreaded chills. What is? Recorded testimony, covering a period little short of half a century, proves that Hostetter's Stomach Bitters is precisely this. This continent does not limit the field where the medicine has proved its efficacy. In South America, the Isthmus of Panama, Mexico, everywhere in fact where miasma-born disease takes on its most obstinate and formidable types, the Bitters is a recognized specific in illimitable demand, and prescribed by physicians of repute. Potent, too, is it in disorders of the stomach, liver and bowels, and against that destroyer, la grippe. It improves appetite and sleep, neutralizes rheumatism and kidney complaints.

Don't Suffer—Catarrh Can be Cured
It commences with a cold in the head, soreness of the throat, hacking cough, hawking and spitting in the morning, raising lumps of matter which form in the throat, the nose passages stopped up, and difficulty of breathing, pain above and between the eyes. Catarrh also causes a very offensive smell, which the sufferers would not be aware of, but which is very disagreeable to those associating with them.
I want my remedies to reach everyone, both rich and poor. One box will cure any case. It makes no difference how long you have had catarrh.

CHEATING IN HORSE BLANKETS

Nearly every pattern of 5/A *Horse Blanket* is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it *hasn't the warp threads*, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that 5/A *Horse Blankets* are copied is strong evidence that they are THE STANDARD, and every buyer should see that the 5/A trade mark is sewed on the inside of the Blanket.

CHANGES.

Whom first we love, you know, we seldom wed,
Tim rules us all. And Life, indeed, is not
The thing we planned it out ere hope was dead.
And then we women cannot choose our lot.

Much must be borne which it is hard to bear;
Much given away which it is sweet to keep;
God help us all who need, indeed His care,
And yet I know the Shepherd loves His sheep.

My little boy begins to babble now
Upon my knee his earliest infant prayer;
He has his father's eager eyes, I know,
And they say, too, his mother's sunny hair.

But when he sleeps and smiles upon my knee,
And I can feel his light breath come and go,
I think of one (heaven help and pity me!)
Who loves me, and whom I loved, long ago.

Who might have been * * * Ah, what
I dare not think!
We are changed. God judge for us best,
God help us do our duty, and not shrink,
And trust in heaven humbly for the rest.

But blame us women not, if some appear
Too cold at times, and some too gay and light.
Some griefs gnaw deep. Some woes are hard to bear.
Who knows the past? and who can judge us right.

Ah, were we judged by what we might have been,
And not by what we are, too apt to fall!
My little child—he sleeps and smiles between
These thoughts and me. In heaven we shall know all.

Rebbecca Johnson, a colored woman living in Hartford since the war, died last week. She claims to have saved John Brown's life on one occasion by hiding him when his foes were in pursuit.

There are some curious things in Yellowstone Park, among which is a hole which has no bottom that has yet been reached. A line has been dropped down nearly 3,000 feet and yet it did not touch bottom.

The number of passengers carried on Egyptian railways in the year 1890 was 4,696,286, as against 4,378,453 in 1889, being an increase of 317,833. The number of miles of line open in 1890 was 960, as compared with 945 in 1889.

Two colored delinquents in Raleigh, N. C., were recently condemned to receive 39 lashes, and spectators were admitted to witness the whipping at 25 cents a head. The gate receipts went to the prisoners, as a salve for their wounds, probably.

The Australian city of Melbourne, which was founded less than fifty years ago, has already a population of nearly a half million, and stands fifth among the cities of the British empire. It is now a great shipping port and its slum quarter is small.

If you want a lovely door in your rooms break off branches of the Norway spruce and arrange them in a large jug well filled with water. In a few days tender, pale green branches feather out, soft and cool to the touch and giving the delightful health-giving odor.

Louis Kossuth has lately suffered so from asthma and weak eyes that he has had to abandon his favorite studies in botany, of which he has collected over 4,000 specimens. The venerable "Liberator" will be 90 years old if he survives till September next.

It now requires but 13 pounds of water, converted into steam, with a pressure of 175 to 200 pounds in the boiler, to secure one-horse power with a triple expansion engine. By the use of one-third more coal the pressure in the boiler and the horse-power can be doubled.

Rev. Dr. E. Y. Buchanan, of Philadelphia, has purchased the celebrated portrait of his brother, President Buchanan, from Mrs. William E. McMaster, the painter's widow. Dr. Buchanan is over 80 years old and the only surviving member of the family in a direct line.

Those are admirable phrases which Mr. Cleveland made in his speech: "Party honesty is party duty," and "party courage is party expediency." They fit perfectly with the temper of the democratic party as reflecting the words with which Speaker Crisp accepted his nomination, when he said: "It means no step backward in tariff reform."

Weaving appears to have been practiced in China more than 1,000 years before it was known in Europe or Asia. The Egyptians ascribed the art to Isis, the Greeks to Minerva, and the Peruvians to the wife of Manco Capac. Our Savior's vest or coat had not any seam, being woven from the top throughout in one whole piece.

Three miles an hour is about the average of the gulf stream, though at certain places it attains a speed of 54 miles. In the Yucatan channel, for instance, where it is 90 miles wide and 1,000 fathoms deep, the current is not over a quarter of a mile an hour. In the Straits of Bemini the current is so rapid as to give the surface the appearance of being a sheet of fire.

John Bright, the English statesman, had an interesting experience in catching his first salmon on the Beauby.. He was told to cast over a spot not more than three yards from him, and, thinking to steady the line, he turned it around his forefinger. The result was that when Mr. Bright hooked his fish he gave an agonizing yell and forthwith tumbled into the river. The line had cut his finger nearly to the bone, and he threw the rod away to free himself.

Look at the Pleiades with the unaided eye and you may see six or seven or a dozen stars; look at it through a 3-inch telescope and you may perhaps see 300. Study it through a telescope for three years, as M. Wolff has done, and map the stars and their places, and you may record 600 to 700 stars on a strange background of nebulous light. Expose a sensitive plate for an hour, and more than twice that number are revealed. Lengthen the exposure to four hours and you have a picture of 2,326 stars, with a different and more extensive background of nebulosity.

FIRED ON THE MEXICANS.

Several of Them Killed by Texas State Rangers.

They Were Caught in the Act of Stealing Ore and Showed Fight with the Above Result.

Marfa, Tex., Jan. 15.—News reached here from Shafer, this county, of a battle between a detachment of Capt. Jones' ranger company, under Sergeant J. R. Hughes, and a band of Mexicans who were stealing ore from the Presidio mine.

This mine has some very rich ore, and for some time parties have been stealing ore and taking it across the river to smelt. Sergeant Hughes caught the thieves in the act and called on them to surrender.

The demand was answered by a volley from Winchesters. Hughes and his men replied with a volley.

The thieves fled, leaving three of their number dead. One of the dead is a brother of Antonio Carrasco, who assassinated a deputy sheriff in this county six months ago.

COUNCIL COMMITTEES.

The General Street Railway Ordinance—Street Business and Other Matters.

Last evening was a quiet one at the council chamber. A few committees met but the business transacted was not of great amount.

The railroad committee considered the general street railway ordinance which had again been introduced by Mr. Coleman.

It was amended so as to provide for safety gates on all cars over 12 feet in length within 60 days and allowing the companies until June 1 to put gates on the bobtail cars.

Mr. Lang claims that the small cars will be out of service by that time.

The ordinance as amended was approved.

A communication was read from property owners on Lagrange street stating that the Consolidated is not running cars on that street and asking that the franchise be revoked.

Mr. Lang promised to run cars on that street by next week and the matter was dropped.

* * *

The street committee held a short session and approved an ordinance to grade Lee street from Walbridge avenue to Sumner street.

A resolution was approved to condemn property and open an alley southeast of Monroe street to the alley between Huron and Erie.

The contract for grading Dawson street from Fassett street to the D. & M. tracks was awarded to W. T. Ryan for $495.

The grading of Sixteenth street from Monroe to Jefferson was awarded to James Horan for $395.

The contract for grading the sidewalk beds on Maumee avenue from Broadway to Prouty avenue was awarded to W. T. Ryan for $460.

* * *

The sidewalk committee approved resolutions for several new walks and listened to a protest from property owners on John street between Canton avenue and State street asking that the legislation for a six-foot walk on that street be rescinded and four foot walks provided for. The committee, however, took no action.

SULLIVAN IN A NEW ROLE.

He Has Joined the Murphy Blue Ribbon Brigade.

After Getting Drunk Again He Swears Off and Talks Temperance to the Inmates of a Low Den.

Tacoma, Wash., Jan. 15.—John L. Sullivan, after getting beastly drunk Wednesday night, yesterday afternoon signed the temperance pledge and joined Murphy's blue ribbon brigade. Murphy met Sullivan yesterday afternoon and after talking for some time, Duncan Harrison and Manager Frank Moran agreed to join the blue ribbon society if Sullivan would. To their surprise Sullivan consented. Last night the slugger talked temperance to a large crowd in a dive. He seems to have no craving for liquor, but whether the reform will be permanent is an open question, on which sports are betting.

HENRY CORBIN LYNCHED.

The Oxford Murderer Overtaken by a Mob.

Strung Up to a Tree and Four Hundred Bullets Fired Into His Body.

Cincinnati, Jan. 15.—Henry Corbin, the negro who murdered Mrs. Georgetta Horner at Oxford, O., on last Tuesday night, was lynched there at 10 o'clock last night. He had been hiding ever since Tuesday night in a shed within a few hundred feet of the place where he had committed the murder.

Growing hungry, he had sent a negro boy up town to get him something to eat, and the boy told that he was getting food for Corbin and told where the murderer was hidden. At once a crowd formed and rushed to the spot to which the negro boy had directed them.

Corbin heard them too late to escape and in his cowardly fear endeavored to put an end to his life with a small 22-calibre revolver. He shot himself above the right eye, but the wound was not fatal. Fearing that their victim had escaped, the crowd rushed in and seized him. But the marshal and his assistants took him in charge and were leading him to the calaboose, followed by an enraged crowd which now numbered several hundred.

Just at the door of the calaboose some one threw a rope around Corbin's neck, but a marshal's knife saved the wretch for the moment. The rope was cut, and Corbin was hustled into the calaboose.

Word soon came, however, that the sheriff was on his way to take Corbin into custody, and upon hearing this the mob broke into the calaboose, and, dragging out the murderer, hung him to a tree in the public square and riddled his body with bullets. It is said that 400 pistol balls were shot into his body. The crowd then dispersed, leaving the corpse hanging.

Henry Corbin, the colored boy lynched last night at Oxford, was for two years the servant of Mrs. Georgetta Horner. Mrs. Horner was a widow of means, living with her daughter. On last Tuesday night the negro locked the door of the dining room and, picking up a club of firewood, killed Mrs. Horner with one blow.

The daughter then resisted his assault on her and escaped to the street, giving the alarm. Corbin escaped. Mrs. Horner's maiden name was Georgetta Markel. She was 53 years old, was a graduate of Dr. Scott's Female college, and was a classmate of Mrs. President Harrison.

JAMES S. ROBINSON,

Ex-Secretary of the State of Ohio Dead at Kenton.

Kenton, O., Jan. 15.—Gen. James S. Robinson, ex-secretary of state, died here yesterday. He has been sick for some time and there has been a gradual decline until to-day, when he quietly passed away, the immediate cause of death being assigned as heart failure.

Gen. Robinson was one of the best known of Ohio's popular public men. He was born in Richland county October 14, 1827, and came to Hardin county 20 years later to assume control of the Kenton Republican.

At the beginning of the war he entered as a private in Company G, Fourth O. V. I. He was elected first lieutenant and then promoted to captain. In October, 1862, he was appointed major of the Eighty-second regiment and later on, colonel. He subsequently became a brevet brigadier general, a full brigadier and brevet major general.

These promotions he received by reason of seniority of rank and meritorious service on the field. He served in the Shenadoah valley under Fremont, in Gen. Pope's campaign, in the second battle of Bull Run, the campaign of Chancellorsville, Gettysburg, Georgia and of the Carolinas. He participated in the battles of Rich Mountain, Cross Keys, Resaca, Dallas, New Hope Church, Clup's Farm, Peach Tree Creek, Averysboro, and Bentonville; was with Sherman on his march to the sea, and closed his honorable soldier career in the march to Washington and the grand review. He received a severe wound in the left shoulder in the battle at Gettysburg, from which he was a great sufferer.

Always a staunch republican he was honored by his party by numerous positions of trust. He was clerk of the Ohio house in 1855 and 1856, served as chairman of the republican state committee, was appointed railroad commissioner in 1880 and 1881. He was elected to congress in 1880 and re-elected in 1882. Two years later he was elected secretary of state and was elected to a second term in 1884.

DEAD IN HIS BED.

Tiffin, O., Jan. 15.—Hon. Robert G. Pennington has received a telegram announcing that his brother, Lewis Pennington, had been found dead in bed at his home in New Haven, Huron county.

S. S. INSTITUTE.

A Good Program Given Yesterday Afternoon.

The session of the Sunday school teachers of the Northwestern convocation of the Episcopal church, was held at Calvary church yesterday afternoon. Mr. C. E. Thomas read a paper on "Sunday Schools; how to conduct them." It was so excellent in every particular, the Rev. Mr. Scadding moved that it be published in the Church Light and Archdeacon Brown volunteered to be the bearer of it to the editor of that journal.

Rev. Mr. Watt, filling the place of an absentee, made a brief address on what should be taught in Sunday schools. Mrs. Scadding, wife of the rectors, read a paper on Church Literature, in the course of which were introduced many laughable anecdotes and incidents from their mission work in New York city, of the misconceptions and misunderstandings of their teachings. The clergy took part in the discussions which followed the reading of the papers, which was spirited and brought out many good thoughts. Miss Jessie Clark read an original poem, the theme of which was, how to win the hearts of the children. Mrs. Scadding requested that the poem, also, be published in Church Light. Mrs. Anna Radbone read a paper on the most acceptable methods of work with children. A vote of thanks was given to the young lady for her excellent presentation of the subject.

The exercises were brought to a close last evening. The institute has been a decided success.

ENTERTAINMENTS.

"Midnight Bell" Last Night—"Tar and Tartar" To-night.

Hoyt's Midnight Bell was presented at the Wheeler opera house last evening to a fair-sized audience. The comedy has but little of the farce and deals with the quaint life in a New England village. It is very much like many other plays of this type and has but little that is new or original. If this is Hoyt's best effort at legitimate comedy, he will do well to confine himself to farces.

There was considerable merit in the company presenting the piece and the production brought out plenty of applause.

Tar and Tartar.

To-night and To-morrow night, January 15 and 16, the latest and most pronounced New York success, the "Tar and Tartar," will be seen at the Wheeler opera house for the first time. The "Tar and Tartar" is an American comic opera in every sense of the word, and is the joint work of two young men, Adam Itzel, jr., of Baltimore, and Harry B. Smith of Chicago. The success of the opera in New York was phenomenal, and with its 200-night run it easily distanced all other competitors for public patronage, yielding in September to force of circumstances only, a proof of which lies in the fact that the opera goes back to Palmer's theater early in the spring for an indefinite time. The story of the opera is very amusing and most ingeniously worked out, while the music is bright and clever and full of catchy airs. The song in the first act, "I want a situation," and the famous transcription of national melodies in the last act, are conceded by all who have seen the opera to be the best numbers heard in comic opera for years, in fact since the days of "Erminie."

SHE WANTS DAMAGES.

Five Thousand Dollars for a Broken Heart.

A Sensational Suit Filed with the Clerk of the Henry County Common Pleas Court.

Napoleon, O., Jan. 15.—(Special)—Miranda A. Rundell has filed a petition with Clerk Brown, of the common pleas court, praying for $5,000 damage from Dr. George Teeple.

She claims that she was a teacher in Kansas and had a school engaged, but resigned by Teeple's request, to whom she had become engaged in the fall; that she was formerly a resident of Liberty township and returned to her home preparatory for the ceremony, which she has letters to prove was to come off at Christmas or thereabouts.

Since her return she has constantly kept herself in readiness for the ceremony, but the bridegroom failed to materialize. W. P. Tyler is her attorney.

CAUGHT ON THE WING.

A Dog That Knows a Thing or Two—Joke on a Toledo Lawyer.

When the north-bound Columbus train stopped at Fostoria the other evening," said John Gunckel to a Bee, "a magnificent Newfoundland dog leisurely entered the coach, and by his general movements seemed to be perfectly at home. His shaggy back appeared just above the seats and his bushy tail wagged from side to side as he looked good-humoredly at every passenger. As the train began to slowly leave the station several gentlemen made an effort to coax the dog out of the car, but he only wagged his tail the more. Finally, as the train increased in speed the passengers all became interested, remarking that it was a shame so valuable a dog should be taken from its home and master. Presently the brakeman entered the car, and by his friendly patting the dog upon the head the passengers thought they were old acquaintances. The conductor said, "Well, old fellow, you're with us again, are you?" The dog looked pleased and stationed himself in a seat on the left-hand side of the coach, and as we neared the next station his tail ceased wagging and his face had a very serious look. The train stopped at Rising Sun and, patiently, in line with the passengers, the dog left the coach. When the trainmen returned to the car we made some inquiry about the dog, and we learned that he belonged to the baggage master at Fostoria and that once a week he visits his master at Rising Sun. He remains between trains and returns home. Between Fostoria and Rising Sun is a small station—Longley—and the dog never pays any attention to our stop there, but has some mark of his own to know Rising Sun.

"District Passenger Agent Wilson has promised to furnish the dog a Buckeye collar. One day the dog boarded a train which did not stop at Rising Sun. Well, it was a sight to see how suddenly he changed his looks and began to whine. He left the train at Bradner and waited on the platform until the next southbound train and stopped at Rising Sun."

Toledo lawyers, as a rule, are not very early risers, and if disturbed will find some way to replevin the last sleep. On inauguration day the special train left Toledo at 6:20 a. m. A certain lawyer, located in the center of the coach, buried his head in his ulster and fell into a sound sleep, not awaking until the train stopped at Carey, some 50 miles from Toledo. After rubbing his eyes he said to some acquaintances across the aisle, "Well, ain't this train ever going to leave Toledo?"

OSTRICH DAN IS DEAD.

The Grip Was More Than He Could Stand.

The Eight Hundred Dollar Diamond Picked From a Gentleman's Shirt Found in Its Stomach.

Cincinnati, Jan. 15.—Dan, the male ostrich of Robinson's circus, wintering here, died yesterday of la grippe, with which he was seized some days ago. A post mortem was held. The lungs were found congested, and the throat was enlarged and ulcerated, while firmly fastened in the coating of the stomach, the $800 diamond that Dan picked last summer from a gentleman's shirt front in Montreal, was found imbedded. The stomach was 18 inches in diameter.

With his thumb, a boy is said to have saved the Netherlands from inundation. Many people have been saved from the invasion of disease by a bottle of Ayer's Sarsaparilla. This medicine imparts tone to the system and strengthens every organ and fibre of the body.

PRIZE FIGHT IN PRISON.

Disgraceful Scenes in the Jackson Penitentiary.

Jackson, Mich., Jan. 15.—Another fist fight has taken place at the state prison. This time two convicts working on the shoe contract had the scrimmage.

For some time a convict from St. Louis named Dewees has been picked on. Just before quitting time a convict named Barr called him a liar. Dewees resented it. The convicts formed a ring so that the guards could not get through, and the two men fought. As a result of the fight Barr goes to the hospital with a badly disfigured face. It turns out that Dewees was a professional lightweight fighter before his incarceration.

A DIAMOND THIEF.

He Broke a Window and Made Off with the Stones.

Pittsburg, Pa., Jan. 15.—W. J. Sarver's jewelry store, No. 46 Federal street, Allegheny, Pa., was the scene of a bold robbery early last evening.

A man, as yet unknown, walked rapidly up to the jewelry window, broke the glass with a coupling pin, and seized a tray of valuable diamond rings.

The night watchman of the building, hearing the crash, started in pursuit of the robber, but the latter made good his escape. The rings stolen were valued at $1,500.

MRS. GRAHAM'S

Cucumber and Elder Flower Cream

is not a cosmetic in the sense in which the term is popularly used, but permanently beautifies. It creates a soft, smooth, clear, velvety skin, and by daily use gradually makes the complexion several shades whiter. It is a constant protection from the effects of sun and wind and prevents sunburn and freckles and blackheads will never come while you use it. It clears the face far better than soap and water, nourishes and builds up the skin tissues and thus prevents the formation of wrinkles. It gives the freshness, clearness and smoothness of skin that you had when a little girl. Every lady, young or old, ought to use it, as it gives a mere youthful appearance to any lady and that permanently. It contains no acid, powder or alkali and is as harmless as dew and as nourishing to the skin as dew is to the flower. Price $1.00. Ask your druggist for it.

SAMPLE BOTTLE mailed free to any lady on receipt of 10 cents in stamps to pay for postage and packing. Lady Agents wanted.

This great work is the cumulative thought of the civilized world, and heretofore could only be found in public libraries and homes of the rich, but, by the means of a modern process of printing and the great liberality of the above business men, who, for good goods and low prices need no introduction to the readers of this paper, this great monument of learning is being given absolutely free of cost.

Standing at the head in the various lines of business represented, it is a pleasure to give these enterprising merchants a portion of your patronage, and just think, you will get the greatest library in the world for your home.

In their search they secured the best. You can now place in your home a library which cost your neighbor from $125.00 to $250.00, and you will have the better book. This vast collection consists of 25 large volumes of nearly 900 pages each, and contains a complete treatise of every subject known to man. It contains 20,000 pages, 16,000 articles, 333 full-page engraved plates, 671 large maps and plans, and 9,000 illustrations. The product of the culture and genius of the master minds of the earth; the noblest work in all literature; and all this to you as free as the air you breathe.

To Whom It May Concern:

I have a full set of the ninth edition of the Encyclopædia Britannica for which I paid $155. It is unquestionably the best Encyclopædia extant.

J. H. BETHARDS,
Pastor Broadway M. E. Church, Toledo, O.

From ex-Gov. James E. Campbell:

To Whom It May Concern—I am pleased to say, that, in my estimation, no work in the English language is of greater value than the Encyclopedia Britannica, and it is gratifying to me to notice the wide spread demand for such great literary productions; and it is to be hoped that this invaluable work may find its way into all the libraries of the people.

Respectfully,
JAMES E. CAMPBELL.

Toledo, Ohio, Nov. 5, 1891.

The Encyclopædia Britannica, ninth edition, constitutes a most valuable part of my library, and increases in value every day. It requires a lifetime of study to determine fully all that this great work may be to every student and professional man. Each volume is a library in itself.

WILLIAM H. SLOAN,
Pastor First Baptist Church, Toledo, O.

The Encyclopaedia Britannica is too well and favorably known to need a word of commendation from any one at this time; yet I am induced to say, after having had free access to it for a number of years, and testing its intrinsic value as a work of general reference, I do fully concur with the statement often seen that it is the most wonderful book of the nineteenth century, and "If all other books should be destroyed, the Bible excepted, the world would have lost but little of its information."

J. L. GROVER.
City Librarian, Columbus, Ohio.

A WHOLE VILLAGE ATTACKED

By La Grippe—Homes Desolated and Strong Men Prostrated.

One Family Only Escapes Without Serious Results.

A Short History and Its Lesson.

Winona, Stark Co., Ind., Dec. 28, 18991. During the winter of 1891 I and my family of six were taken with the la grippe. The disease was very prevalent at that time in the village where I resided, nearly every one being sick with it. Our doctors treated it as best they could, but were very unsuccessful in the treatment of it. As soon as my family were taken sick I went to the drug store and bought six bottles of Pe-ru-na, and we all took it according to the directions given on the bottle; and, although our cases seemed to be more than usually violent in the outset, yet our recovery was prompt, and we were all well much sooner than those who were treated by the regular physician. In the beginning of the attack we all had a violent cough, bleeding at the nose and spitting of blood, but the Pe-ru-na promptly relieved us, and we took no other medicine during our sickness. Many people died of the la grippe during this epidemic, and few, if any, were sick so short a time as myself and family. After we were all sound and well again we still had one bottle of Pe-ru-na left in the house.

I can cheerfully recommend the Pe-ru-na as a cure for the la grippe and a general family medicine. I shall not be without Pe-ru-na in my house again unless I am absolutely unable to get it.

I will answer any letters of inquiry from anyone wishing to know more of the particulars. C. T. HATFIELD.

The above is the unsolicited testimony of an honest laboring man. He did exactly what hundreds of other parents have done, and what hundreds of others are doing, and what hundreds of others will do as soon as they find out the value of Pe-ru-na as a family medicine. Not only did Mr. Hatfield save money by resorting to Pe-ru-na, but his family recovered much sooner and more perfectly than those treated in the ordinary way.

The fact is, there is no equal to Pe-ru-na for la grippe, catarrh (acute or chronic) coughs, colds, bronchitis and consumption in the early stages. Pe-ru-na is the prescription of a renowned physician who has been in constant practice over thirty-five years, and this remedy has been used in four epidemics of la grippe previous to this one with undeviating success. Complete drections accompany each bottle, and is kept by most druggists.

Send for a free copy of The Family Physician No. 2 on la grippe, catarrh and all climatic diseases of winter. Address Pe-ru-na Drug Manufacturing Co., Columbus, O.
